MANUAL OF ELEMENTARY DRILL, 1935 (ALL ARMS)

INTRODUCTION

1 This manual has been arranged primarily for the use of N C Os of all arms of the Service but its contents should also be known by all officers

2 The manual deals with the following subjects —

i *Elementary drill* up to and including squad drill in two ranks (except troop drill (dismounted) in the case of cavalry) and drill with the rifle, revolver and sword

ii Guards and sentries

iii Those details of march discipline which all N C Os should know

3 Where drill varies in different arms of the Service, explanatory notes have been inserted at the beginning of the chapters and sections concerned

4 The drill of rifle and English light infantry regiments is dealt with separately in Chapter VII

CHAPTER I

SQUAD DRILL—GENERAL

(Applies to All Arms, except Sec 3 as noted)

1 General instructions for drilling recruits

t
t
t
t
t

2. The detail of drill movements as given in the following sections is for the information of instructors only. It is not to be repeated word for word to the men on parade.

3 When recruits are being taught a particular motion or exercise, the instructor will first form the squad round him

already described, and give examples of common faults. The men will then be made to perform the movement themselves, first by numbers and subsequently judging the time, the instructor taking each in turn and correcting faults.

5 Men should be given frequent short rests between exercises.

movement

7 In drill movements which have two or more motions, recruits should be taught to make a uniform short pause after each motion when judging the time.

2. Words of command

1. Good drill depends in the first instance on good words of command.

3 Commands which consist of one word will be preceded by a caution, which may be part of the word itself. The first or cautionary part of a word of command, will be given deliberately and distinctly: the last or executive part, which, as a rule should consist of only one word or syllable, will be given sharply. as Platoon (slowly)—Halt (sharply): Right (slowly)—Form (sharply) A pause, which should be uniform in all commands, will be made between the caution and the executive word of command

4 The cautions and commands in this manual are, as a rule, given with regard to one flank only, but the same principles apply equally to movements to the other flank, which will also be practised

5 Words of command must be given at all times with precision by all ranks, indistinct and slovenly words of command produce slovenly movements and must be avoided.

6 Instructors when giving words of command must stand at attention and themselves adopt a *correct bearing*, and so be an example of alertness to their men

7 It should be remembered that a word of command is an order which must be smartly and promptly obeyed.

Instructors must observe the result of their commands at drill and check any tendency on the part of the men to carry out a movement in a slovenly manner; for instance, when men are called to attention or are ordered to stand at ease absolute steadiness and silence must be insisted on. Plenty of time should therefore be taken over the correct performance of one movement before proceeding with the next.

immediately prior to the last word of command, the command *As you were* may be given

3 Inspection

(Paragraph 1 of this section does not apply to Royal Artillery or Royal Tank Corps Units)

1 Whenever a squad parading in two ranks is to be inspected the ranks will be opened for the inspection or closed on its completion by the following orders —

Open order—March The rear rank will step back two paces and dress by the right.

Close order—March The rear rank will step forward two paces and dress by the right

2 The instructor will pay attention to the personal cleanliness of the men as well as to the care of their arms equipment and clothing A clean and smart turn-out must be insisted on at all times In this respect instructors must set a high standard for young soldiers to emulate Men learn good habits more quickly by example than by other methods

3 Instructors will be trained in methods of inspection so that with practice they will be able to tell at a glance whether each man on parade is correctly turned out or not.

4 A man ordered to adjust his dress will take a pace forward if in the front rank or a pace to the rear if in the rear rank on completion he will regain his place in the ranks by taking a pace to the rear, or forward as the case may be

CHAPTER II

SQUAD DRILL IN SINGLE RANK—WITHOUT ARMS

(Applies to All Arms except where notes to the contrary are shown)

SQUAD DRILL WITH INTERVALS

4. Formation of squads with intervals

1 A few men will be placed in single rank at arm's length apart; while so formed, they will be termed a squad with intervals

2 Instruction can best be imparted to a squad in single rank, but, if want of space makes it necessary, the squad

3 When recruits have learned to dress as described in Sec 8, they will be taught to fall in, and to dress and correct their intervals immediately without any further order.

4 Care must be taken that the positions of recruits in the ranks are changed frequently, as they must be taught to drill correctly in any position in the squad

5. Attention

Squad—Attention.

Spring up to the following position —Heels together and in line Feet turned out at an angle of about 45° degrees Knees straight. Body erect and carried evenly over the thighs, with the shoulders (which should be level and square

finger, thumb immediately behind the seam of the trousers. Neck erect Head balanced evenly on the neck and not poked forward eyes looking their own height and straight to the front

The weight of the body should be balanced on both feet and evenly distributed between the fore part of the feet and the heels

The hands should not be restricted and no

6. Standing at ease

Stand at—Ease.

On the left foot the right foot is moved to the left so that the

1 In marching order without the rifle the arms will be retained as in the position of attention

2 When a recruit falls in he will stand at ease after he has got his dressing

7. Standing easy

Stand—Easy.

The limbs head and body may be moved but the man will not move his feet, so that on coming to attention there will be no loss of dressing Slouching attitudes are not to be permitted If either foot is moved men are inclined to lose their dressing

On the caution *squad, etc*, the correct position of stand at ease will be assumed

8. Dressing a squad with intervals

Right—Dress.

Each recruit, except the right-hand man, will turn his head and eyes to the right and at the same time extend his right arm, back of the hand upwards, finger tips the shoulder of the man on his right. He will.

Eyes—Front.

The head and eyes will be turned smartly to the front, the arm cut away to the side, and the position of attention resumed.

9. Turning by numbers

1. Turning to the Right—One.

Keeping both knees straight and the body erect, turn to the right on the right heel and left toe, raising the left heel and right toe in doing so.

On the completion of this preliminary movement, the right foot must be flat on the ground and the left heel raised, both knees straight, and the weight of the body, which must be erect, on the right foot.

Two.

Bring the left foot smartly up to the right.

2. Turning to the Left—One.

As for above, except for *right* read *left* and *versa versa*.

Two.

Bring the right foot smartly up to the left.

Keeping both knees straight and the body erect, turn to the right-about on the right heel and left toe, raising

.. .. .

Two.

Bring the left foot smartly up to the right.

4 *Inclining* is similar to turning, except that a half turn is made instead of a full turn.

5 Throughout all turns the arms must be kept close to the sides as in the position of attention

6 In turning judging the time commands are *Right* (or *Left*) or *About—Turn Right* (or *Left*) *In—cline*, the movements described above will be carried out on the command *Turn* or *In—cline* observing the two distinct motions

10 Length of pace and time in marching

1 *Length of pace* —In slow and in quick time the length of a pace is 30 inches In stepping out it is 33 inches In double time 40 in stepping short 21 and in the side pace, 12 inches

When a soldier takes a side pace to clear or cover another (as in forming fours) the pace will be 24 inches

2 *Time* —In slow time 70 paces are taken in one minute In quick time 120 paces equal to 100 yards in a minute, are taken Except during the first weeks of recruit training, recruits when not in marching order will take 130 paces a minute in quick time at drill

In double time 180 paces equal to 200 yards a minute, are taken

Distances of 100 and 200 yards will be marked on the drill ground and N C Os and men practised in keeping correct time and length of pace

11 Position in marching *

1 In marching the soldier will maintain the position of the head and body as directed in Sec 5 He must be well

balanced and his arms must be kept close to the sides of his body. His feet must be well placed and he must march in a straight line. He must be well balanced and his arms must be kept close to the sides of his body. His feet must be well placed and he must march in a straight line.

straight but so as not to jerk the body

* The drum and pace stick are useful aids in teaching recruits to preserve a regular cadence and correct length of pace in marching, and they should be used frequently when available.

4 Before the squad is put in motion the instructor will take care that each man is square to the front and in correct line with the remainder. The recruit will be taught to take a point straight to his front, by fixing his eyes upon some distant object and then when the command is given to march, to keep his eyes fixed upon that object.

12. Marching in quick and slow time

1 *The quick march*

The Squad will Advance Quick—March.

The squad will step off together with the left foot, in quick time, observing the rules in Sec. 11.

During recruit training squad drill should be frequently repeated in slow time only. The exercise is as follows:

3 *The halt*

Squad—Halt.

A pace of 30 inches will be completed with the left foot and the right foot brought up in line with it. At the same time the right hand will be cut smartly to the side.

4. *Stepping out*

Step—Out.

The moving foot will complete its pace, and the soldier will lengthen the pace by three inches, leaning forward a little, but without altering the time.

This step is used when a slight increase of speed without an alteration of time is required, on the command *Quick* (or *Slow*)—*March* the normal length of pace will be resumed.

5. Stepping short

Step—Short

The foot advancing will complete its pace after which the pace will be shortened by nine inches until the command *Quick* (or *Slow*)--*March* is given when the normal length of pace will be resumed.

6 Marking time

Mark-Time.

The foot then advancing will complete its pace, after which the time will be continued without advancing by raising each foot alternately about six inches keeping the feet almost parallel with the ground the knees raised to the front, the arms steady at the sides and the body steady. On the command *For-ward* the pace at which the men were moving will be resumed.

In slow time the feet should be raised twelve inches when marking time, the ball of the foot being immediately below the point of the knee, toes pointing downwards.

7 Stepping back from the hall

... **Paces. Step back—March**

Step back the named number of paces of 30 inches straight to the rear, commencing with the left foot, keeping the arms still by the sides

Stepping back should not exceed four pages

13. Changelog step

1. When on the march

Change—Stop.

same foot

2 When marking issue

The moving foot will complete its pace and the soldier will lengthen the pace by three inches leaning forward a little, but without altering the time.

2. The halt

Squad—Halt

The command *Halt* will be given when the number of paces has not been specified. The command will be given when the heels are together. The signal will then take a further pace in the direction ordered and then a ready.

3 Soldiers should not usually be moved to a flank by the side step more than 12 paces.

16. Turning when on the march

1. Right (or Left)—Turn

On the command *Right* (or *Left*),—Turn the *left* (or *right*) foot will be brought forward until it is just in line of the right (or *left*) foot and each man will then turn smartly in the required direction using his *left* (or *right*) foot as a pivot, and advances a full pace of 30 inches in the new direction with the right (or *left*) foot.

The turn to the right must be made off the *left* foot and to the left off the right foot.

2. About—Turn

Complete the pace with the right foot then immediately the turn with the left foot. The turn being completed in three beats of the time in which the soldier is marching. Having completed the turn about, the soldier will at once move forward the fourth pace being a full one and taken with the right foot.

*11 Judging the time***Salute, Judging the Time—Salute**

Go through the motions as in sub para 1 above making a pause equal to two paces in quick time between each motion

2 Saluting to the side**3 Saluting on the march**

On the command *Eyes—right* (or *left*) and *Eyes—front* squads will turn their head and eyes to the right (or left) and to the front as the left foot comes to the ground. The same principle applies for a squad with arms.

(This section does not apply to Cavalry and Royal Tank Corps units.)

1. Royal Artillery

When marching

Regiments will turn to march in a new direction the flank after which they will be marched to march when on the march. It will be explained to the squad that in marching the flank which is brought forward is the outer flank, the other, the inner or pivot flank.

The method of marching will be the same as laid down in Sec. 31, 6.

2. Royal Engineers, Infantry and R.A. S.C.

i. When halted

Change direction Right. Right—Form.

The cane will be held firmly in the right hand in a perpendicular position close to the body, the tip of the joint of the forefinger of the right hand resting on the cane and pointing towards the front of the cane. The cane will be held in the right hand.

2 Position of cane when standing at ease

The back of the right hand in the palm of the left hand to be between the right arm and the body, the cane pointing obliquely upwards and to the right front.

3 Position of the cane on the march

On the command *Quick—March* step will be continued as in Sec. 11. As the left foot comes to the ground the first time bring both hands smartly to the centre of the cane (the cane to be kept perpendicular in the right hand) and as the right foot comes to the ground the second time

* The head and eyes will not be turned towards the officer.

4 *Halting.*

On receiving the command *Halt*, canes will be kept at the trail. After a slight pause, canes will be brought to the position of attention in two movements, viz —

5 *Turning about*

When halted — The cane is kept in position of attention.

On the march — On the first movement of the turn (left foot), the cane will be brought to a perpendicular position in front of the right shoulder upper part of the arm close to the side, forearm horizontal hand in line with the waist belt. On the first pace (right foot) after the completion of the turn, the cane will be brought to the trail.

6 *Saluting when carrying a cane*

To the front (practice for delivering messages to or addressing officers)

NOTE—In place of squad drill in two ranks, *Cavalry* and *Royal Engineers* (Field Squadrons only) will be trained in Troop Drill (Dismounted) as laid down in Cavalry Training

PART I—ROYAL ARTILLERY

29 Formation of a squad in two ranks

The men will take their places in succession from the right each occupying a lateral space of 24 inches. The rear rank will be at three paces distance from the front rank. If the squad consists of an uneven number of men the second man from the left of the front rank will be a blank file.

Sec 20, 1

2 *Proving flanks of fours*

Flanks of Fours—Prove

Each number 1 and 4 in the front rank and their rear rank men will prove as laid down in Sec 20, 2

31. Movements

1 When moving in sections of fours or half sections if

of and in line with its front rank

2 When on the move increasing or decreasing the pace on foot, the pace will not be increased but the front of rank will be ordered to mark time as necessary.

3 NCOs or more advanced privates should be posted on the flanks of the front rank at a point of direction for dressing will be given to one or two or flank as a rule. These men are termed flank guides and should be led.

Dressing—For ceremonial purposes ranks will be dressed to dress on the word of command "Right (or Left) Dress." Both ranks will act as in Sec 19, 1.

Normally, however in squad drill each man will pick up his dressing without further word of command on completion of the movement both ranks acting as in Sec 19, 2 and the rear rank covering correctly the front rank.

Distances between ranks when in section of four, half sections and files will be 3 paces 1½ paces and 1 paces respectively, according to the formation.

4 The march in line

The Squad will Advance, By the Right Quick (or Slow), March

On the command *March* the whole squad will march off together at the pace ordered.

On the command "Right (or Left) In—cline" the squad will march off at the pace ordered, regulating the distance between ranks as in Sec 19, 2. The flank guide of the directing flank having made the half turn, will pick up a point on which to march, and move forward at the original pace. The remainder of the men

move parallel to him preserving the same relative direction and position with regard to each other as when the turn was first made

NOTE—Should the squad be required to move in the original direction the command will be *The Squad will advance (or Retire) Left (or Right) In—cline*

6 Wheeling

Change Direction Right (or Left) Right (or Left)—Wheel.

On the command *Wheel* the inner flank guide will mark time looking to the outer flank and coming gradually round with his rank

The outer flank guide will look inwards, regulating his direction so as to maintain the same extent of front The remainder will look towards the outer flank and feel towards the inner flank in order to preserve their dressing and position throughout the wheel

The arms will not be swung while wheeling

As soon as the front rank begins to wheel the rear rank men gain ground towards the outer flank by a combination of inclining and wheeling

The wheel continues until the required degree has been obtained and the order *Halt or For—ward* has been given

If an advance from the front has been made, and it is desired to increase the front, the command will be given to move up on the right of those in front and reverse.

If the caution *To the Halt* is not given the leading file, half-sections or sections of fours will advance five paces and mark time.

NOTE.—If the command *To the Halt* is not required the order in para. 9 i, and 9 ii will be *Form Half-sections (or Fours) Front Mark Time*. CHAPTER VIII

MARCH DISCIPLINE

NOTE This chapter deals with points of march discipline which must be known by all ranks. Officers should read it in conjunction with Field Service Regulations Vol II.

87 Importance of march discipline

1 Units of all arms must be capable of undertaking long and rapid marches in war without loss of numbers and efficiency. March discipline includes everything which affects the efficiency of men, animals and vehicles before, during and

3 March discipline which breaks down at a time of crisis is of little value. The longer and more trying the march, the more strictly must it be enforced.

88 General rules

BEFORE MARCHING

1 Men and animals should start a march as fresh as possible. They should therefore not be roused any earlier than is necessary.

2 Quarters, camps and halting places must be left clean and tidy. All refuse must be buried or burnt and latrines filled in and marked.

3 The comfort and health of men on the march depend to a great extent on their clothing being in good condition and equipment well fitted well fitting saddlery and harness is essential if casualties among animals are to be prevented finally if the loads of vehicles and pack transport animals are not evenly distributed and well packed or if authorized loads are exceeded an undue strain will be placed on the animals or engines and break-downs will occur Strict attention to all these points is therefore necessary before every march

ON THE MARCH

4 Unless opened out on either side of the road by order

5

5 An officer when available (otherwise a NCO) will march in rear of each squadron battery company or other unit to see that no man leaves the ranks without permission that the troops vehicles and animals keep properly closed up and that the column does not open out

6 The rate of marching throughout a column should be uniform an irregular pace is most exhausting especially to the troops in rear of the column

7 The first condition for good march discipline is that dressing and covering and in dismounted units step are correctly kept

gained

9 No man is allowed to fall out on the march without the written permission of an officer to do so NCOs or men will not fall out to take care of sick men without written permission

10 No one not authorized to do so is to ride or place his arms or equipment on a vehicle without written permission to do so such permission will only be given in special cases and will apply only to empty vehicles

11 Strict attention must be paid to water during the march, the less men drink during the actual march the better. Men should not be allowed to drink from their water bottles without permission. They are not to be permitted to fall out for water.

HALTS

12 A warning whistle will be sounded one minute before each halt when troops will march at attention. The signal or command to halt will be given by commanders of squadrons, batteries and companies, troops will await orders before falling out.

13 Units will fall out on the side of the road on which they are marching (except that when the situation permits officers may fall out on the other side).

14 At long halts latrine trenches should invariably be dug

89 Additional rules for mounted troops and animal transport

1 Before commencing a march all commanders should make certain that saddlery or harness is correct and that animals and vehicles have been properly loaded and that animals and vehicles are in good condition.

2 Even when marching at an early hour, the animals should be watered and a small feed should be given before starting.

Every opportunity will be taken to water animals on the march.

3 Sufficient time should be allowed each morning for men to saddle up carefully, but on no account should animals be harnessed up or hooked in an unnecessarily long time before starting.

slower

The last mile of a day's march should always be traversed at a walk so as to allow horses to cool, and at the end of a long march it is advisable to dismount and lead them for the last half mile to ease the pressure on their backs

6 In artillery the least fatiguing pace is a combination of a slow trot and a walk, the pace of the trot should never exceed 6 miles an hour

7 Subordinate commanders should anticipate unavoidable checks and must observe all signals or words of command and pass them quickly and accurately down the column. Sufficient time must be allowed for a command to be passed down the column before a change of pace is made

9 To avoid tiring horses, the men should at all times

10 To enable men to look round their horses and saddles, a short halt should be made about a quarter or half an hour after starting, or as soon as the day has broken

11. When the warning signal is given one minute before a halt, all vehicles should edge into the side of the road so that they may be closed in when they halt

12 During any long halts, horses will be off-saddled or packs off-loaded and their backs hand rubbed. During short halts mounted men will dismount and saddle or pack loads

falling in on the outer flank and the remainder of the four moving to their left or right

3 Men should never be allowed to double

4 Organized singing on the march will be encouraged in every unit. It helps men to march well even when fatigued

6 Mounted officers should spend most of their time looking after the rear not the front of their units

7 Every man will take off his equipment (anti gas

8 Troops will fall in and stand at ease when the warning signal to start is given. On the command to advance they will come to attention and march off at the slope

9 Men's feet will be inspected by platoon etc commanders immediately after every march

91. Additional rules for mechanical vehicles

1 Commanders of units and sub units are responsible that all vehicles are ready for the road and that engines are started in sufficient time to ensure that there shall be no delay at the beginning of a march

to report break-downs and stoppages

of an important or valuable nature, should be transferred to a spare vehicle

13 If a vehicle breaks down in the fairway, it must immediately be hauled to the side of the road

14 Turning about is often the cause of badly ditched vehicles. It should only be carried out on roads over 25 feet wide, when there is little traffic, and even then should rarely be attempted. One vehicle only must be turned at a time. It is nearly always better to make a complete circuit by leading the column round by another road, if turning places have not been provided

15 When a column halts it will close up to the distances laid down for the particular unit or type of vehicle (*see* para 6, above)

Vehicles must pull in to the side of the road before halting, and all engines will be shut off

17. A space should be left in the column for vehicles which have fallen out; vehicles rejoining a column at a halt will remain at the rear until given permission to move into their place

18 The officer or N.C.O. in charge of each block of vehicles will post a man at each halt to control traffic passing the block.

19 All officers, N.C.Os and drivers should take every opportunity of looking round the vehicles in their charge during halts, and of effecting minor adjustments and oiling where necessary; careful attention to vehicles in this way will reduce considerably the risk of break-down

20 All drivers and personnel employed on traffic control duties must be thoroughly conversant with the Highway Code

92 Compliments on the march

WAR

1 No compliments will be paid during a march on service, unless specially ordered

PEACE

2 The procedure will be as follows when a body of troops passes --

- (a) The King the Queen and other members of the Royal Family (For guards, rounds and reliefs see Sec 77, 5)
- (b) Armed bodies of troops on the march, commanded by an officer
- (c) Guards escorts etc
- (d) Their own brigade commander (or C R A in artillery) and general officers and officers of the Royal Navy and Royal Air Force of equivalent ranks, when in uniform

The commander of the unit or detachment will give the order to march at attention

Compliments will then be paid by troops, platoons, etc (or squadrons companies etc, if they are too weak to parade in troops or platoons). In such cases the commanders of these bodies will give the command *Eyes—Right* (or *Left*) (In horsed artillery the commands are repeated in succession by Nos 1). All officers will salute and also other ranks if in command of troops etc

Small bodies of troops not commanded by officers will pay compliments to all officers

ii Unarmed bodies of troops passing each other will be called to attention and compliments will be paid as in para 2, i, above

iii The officer in command of an armed party will return the salute of a NCO in charge of an unarmed party of less than 20 men (see King's Regulations), but will not call the armed party to attention

73. Grant of leave to officers holding temporary appointments.

31st Jan.
1922.

As some doubt appears to exist on the subject of the grant of leave to officers holding temporary appointments, it is notified for information that, as a rule, an officer holding a temporary appointment can only be granted after war leave from that appointment. Provided, however, that local arrangements can be made for the performance of his duties and he is not succeeded in his appointment, privilege or other leave may be granted in combination with after-war leave.

- 124 Substantive promotion of British officers of the Indian Army

124
14th Feb.
1923.

As the precise effect of the introduction of the sliding scale of promotion authorised by Army Instruction (India) No 870 of 1919 does not appear to be thoroughly understood the following is published in amplification thereof as since the issue of Army Instruction (India) No 693 of 1921 dates can be definitely laid down

Second Lieutenants whose commissions count for purposes of promotion from or before 31st August 1920 are

eligible for promotion after one year from date of commission. Officers commissioned on or after 1st September 1920 must serve for 2½ years before becoming eligible for promotion to Lieutenant.

Lieutenants whose commissions for purposes of promotion date from or before 31st August 1917 are eligible for promotion to the rank of captain after four years' service. Those commissioned between 1st September 1917 and 31st August 1918 (both dates inclusive) are eligible after five years' service, those commissioned between 1st September 1918 and 31st August 1919 (both dates inclusive) are eligible after six years' service, those commissioned between 1st September 1919 and 31st August 1920 (both dates inclusive) after seven years, those commissioned between 1st September 1920 and 31st August 1921 (both dates inclusive) after eight years, and officers commissioned after 31st August 1921 must serve the normal period of nine years before becoming eligible for promotion.

Captains whose commissions for purposes of promotion date from or before 31st August 1908 are eligible for promotion to the rank of Major after fifteen years' service, those commissioned between 1st September 1908 and 31st August 1910 (both dates inclusive) are eligible after sixteen years, those commissioned between 1st September 1910 and 31st August 1912 (both dates inclusive) after seventeen years, and those commissioned after 31st August 1912 will not become eligible until they complete the normal period of eighteen years' service.

The normal time-scale period of twenty-six years' service required in order to qualify for promotion to Lieutenant-Colonel is not affected and has not been affected at any time.

2 Nothing in this Instruction affects the right of officers who forfeited nine months' commissioned service on being selected for permanent commissions to the concession granted to them in paragraph 4 of Army Instruction (India) No. 870 of 1910, that is to say, they may be promoted *pari passu* with the officer next above them in the general gradation list of the Indian Army List who was granted his commission after passing through a Cadet College or who was a university candidate.

3 Officers are permitted to count as "service" under these rules only such service as is allowed to reckon for promotion.

4 Officers are again reminded that from and after 1st January 1922 no one will be considered eligible for promotion until he has passed the necessary examinations see India Army Order No 31 B of 1920

APPENDIX TO ARMY INSTRUCTION (INDIA)
No 119 of 1922

Government of India, Finance Department letter No 1190-C S R, dated the 6th December 1921, to Provincial Governments and Administrations

Method of calculating the leave allowances of military officers in permanent civil employ who were temporarily reverted to military duty during the war

It has been brought to the notice of the Government of India that the application of the rule prescribed in paragraph 1 of Mr Haig's letter No 1814 C S R dated the 31st July 1920 for calculating the leave allowances of military officers in permanent civil employ who were temporarily reverted to military duty during the war has in certain cases given lower rates of leave allowances to military officers whose military pay and allowances exceeded the hypothetical civil salary calculated according to the next below rule. It has been decided in modification of the orders referred to and in anticipation of the approval of the Secretary of State, that the calculation of leave allowances in such cases should be based on military pay and allowances actually drawn on military duty when these are more favourable than civil salary under the next below rule provided that only military pay and allowances are taken into account and civil furlough pay is not included in the calculation. The same concession is extended to the case of civil officers if any whose military pay and allowances exceeded civil salary under the next below rule. In modification of the orders in paragraph 2 (i) of Mr Haig's letter No 127 C S R dated the 6th February 1922.

2 Audit officers will adjust the furlough pay of officers who have returned from leave in accordance with the decision and issue amended last pay certificates in the case of officers still on leave.

APPENDIX TO ARMY INSTRUCTION (INDIA)

10 At stations where there are Government disinfectors units will arrange for the disinfection of extra issue blankets before return to clothing depots At places where a Government disinfectant does not exist but where it is possible to arrange for the process in a disinfectant not owned by Government it will be carried out under arrangements made by the chief ordnance officer All extra issue blankets

whether disinfected or not will be washed under arrangements made by the chief ordnance officer

When infectious disease is present in the station in epidemic form, arrangements will be made regimentally for blankets to be boiled, unless there is a disinfecter in the station. The senior medical officer will inform the officer commanding station when he considers such a course necessary and the fact will be notified in station orders

APPENDIX TO ARMY INSTRUCTION (INDIA)
No. 153 of 1922.

Government of India, Finance Department letter
No. 756-A, dated the 6th October 1921.

The Government of India have had under consideration suggestions for eliminating as far as possible pices in Government accounts. The only way to do this is to make payments only in even annas as far as possible. It is recognised that this will not be possible in all cases, e.g. payments on contingent accounts and to daily labour. The Government of India have, however, in consultation with the Auditor General, decided to make a beginning so far as the transactions of the Central Government are concerned by omitting pices from all salary, establishment, pension and travelling allowance bills.

2 All individual items in such bills whether they pertain to salaries, or allowances of any description, pensions, or travelling allowance, or represent deductions of some sort, will be calculated to the nearest anna (fractions below half an anna being omitted, and half an anna or over being reckoned as one anna), except as specified below—

(a) In the case of salaries fixed by statute, the payment may be to the next higher anna.

(b) In the case of pices occurring in life insurance premia under the Postal Life Insurance scheme, and in subscriptions to uncovenanted pension funds such as the Bengal and Madras Service Family Pension Fund, the Bombay and the Bengal Uncovenanted Service Family Pension Funds which are deducted from salary bills, the total sum for twelve months is bound to be an even sum of annas, and every subscriber should be asked to pay the year, do in the s to pay.
 Rs. 3-5-7 per month may pay Rs. 3 6 0 per month for eleven months and Rs. 3-1-0 in the twelfth month.

(c) As regards recoveries of amounts under objection, when all amounts of bills are calculated in annas, there cannot be any pice in objection

books, except in the case of recoveries of advances in instalments. These instalments need not be exactly equal and the recoveries should be fixed as to be always in annas, the last instalment being adjusted as necessary, e g, a motor car advance of Rs 5,000 to be repaid in 36 instalments, should be recovered as follows 35 instalments of Rs 138 14 0 and a last instalment of the balance Rs 139 6 0

8 The new procedure will come into force from 1st April 1922 with regard to payments made directly by the Central Government and by Local Governments with regard to "agency" subjects

2 *Necessity of indents*—Forms are supplied gratis by the Controller of Printing and Stationery Calcutta but no forms will be issued except on indents in Form I A F Z 2002 countersigned by a District Staff Officer or C M A and fully complying with these instructions. Each indent must be signed by the Officer Commanding Unit or District Head of Department or his staff officer who will be responsible that the indent complies with these instructions and has been drawn up with due regard to economy.

In order to control expenditure the column showing stock in hand must be carefully checked by a British Officer and the number shown in the column for quantity required must not in the case of Regimental Section forms exceed the difference between the maximum annual allowance and the number in hand in the case of forms in the Staff or Special Sections for which no maxima have yet been laid down the numbers required must not exceed the difference between the past year's consumption and the numbers in hand. Any divergence must be explained in the Remarks Column of I A F Z 2002.

4 *Supplementary indents*—All indents other than annual indents are classed as supplementary indents and cover—

6 *Monetary limit for each District* —In order to enforce economy in forms throughout the Army and to ensure efficient control by District Staffs on indents a monetary limit has been fixed for each District against which all forms issued to that District will be debited. The Controller will cease to comply with indents when the limit is reached unless and until a further monetary allotment has been sanctioned by the Government of India. Applications for an extra grant must be submitted by the District Commander to the Secretary, Army Department, direct, giving full reasons for the excess. General Officers Commanding Districts will be kept informed by the Controller of the amount of their monetary allotment and the balance in hand after each issue. The balance can be checked with the issues by means of the Price List which each District Headquarters will receive. Deficiencies in complying with indents are provided for in paragraph 9.

A similar monetary limit will be fixed for all the Military Accounts offices in each District. This will be quite separate from the District Commander's monetary limit. In respect of the monetary limit of Military Accounts Department offices the Controller of Military Accounts will exercise the functions of a District Commander.

2 Armoured Car units will similarly obtain the special Mechanical Transport forms which they require.

3 When a unit requires a few copies of a form not in its stock it may obtain them from the District Headquarters pool without the submission of a supplementary indent. If such form (e.g., a Veterinary Form) is not stocked in the pool the District Staff will arrange to supply it either from the Assistant Director of the service concerned or by supplementary indent on the Controller.

4 If a Unit or Formation has no Field Service Forms it will obtain the allotment laid down for it as its mobilization equipment in the "Tablea of Books Forms and Stationery taken into the Field by the Army in India on a supplementary indent

7 Each Head of Service or Department will submit his consolidated indent for all offices and units serving under his command in the District to the Officer of the District Staff (Deputy Assistant Adjutant General) who controls all indents for forms and the District monetary allotment This officer will deal with them in the same manner as Indents for Combatant Units are dealt with *vide* General Rules (III 8)

V — SUBSIDIARY INSTRUCTIONS REGARDING MAXIMUM ANNUAL ALLOWANCES TO UNITS

1 The District Commander or C M A is empowered to decide all cases of demands exceeding the prescribed limits subject to his monetary allotment

He will only refer to Command Headquarters general questions involving material alterations to these rules or to the scales of maximum annual allowances

2 Where one portion of a Unit (*e g* Artillery Brigade or Corps of Sappers and Miners) is stationed in one District and other portions in other Districts the Officer Commanding the Unit (Lieutenant Colonel R A or Commandant Sappers and Miners) will alone indent for all the forms

required for his command, through the Headquarters of the District in which his own headquarters are situated. He will distribute the forms to all the units under his command and will similarly deal with all supplementary requirements.

3 Special remarks regarding certain columns of I A F Z 2001, Regimental Section—

Column 1.—The scales in column 1 are for an Artillery Brigade with a normal establishment of Headquarters and 4 batteries. The Governor General in Council has had under consideration the question of granting concessions in the matter of securing civil appointments under Government to those persons who have rendered service in connection with the prosecution of the war. With the approval of the Secretary of State, His Excellency in Council is pleased to make the following announcements —

Firstly, no person shall be in any way prejudiced either in securing a civil appointment or in respect of seniority in such appointment by the fact that he has rendered service in the prosecution of the war or by the fact that his entry into civil employment has been delayed by such service.

Secondly, applications from persons who have rendered such service shall *ceteris paribus* receive preferential treatment in the matter of civil appointments under Government

2 The following kinds of service shall be deemed to be service in the prosecution of the war —

- (a) Service in the combatant ranks of the army,
- (b) All other service involving subjection to military law under the Army Act, or the India Army Act, and service in the Indian Branch of the Indian Defence Force,
- (c) Clerical and other service under military and munitions authorities (i) overseas, and (ii) in India

Preferential treatment shall be given to the various kinds of service in the order indicated above and persons who have rendered active service shall be given preference over those who have not. In order to make good a claim to preferential treatment, an applicant must satisfy the authority making the appointment that the service rendered was whole time service, and was also approved service.

3 In pursuance of these decisions, every person who has rendered service of the character described above shall be permitted to deduct from his age for the purposes of article 51, *Civil Service Regulations*, the period of such service rendered up to the date of his release from military or other duties and, if invalided from such service he shall be permitted to include, for the purposes of deduction the period from the time when he was invalided up to the date on which the war may be declared to have ended under the provisions of the Termination of the Present War (Definition) Act, 1918, 8 and 9 George V, Chapter 69

4 Notwithstanding any rules or executive orders prescribing educational, professional or technical qualifications, any person who has rendered service of the nature already described and has been prevented thereby from acquiring such qualifications may, at the discretion of the authority competent to make an appointment for which such qualifications are required, be admitted, to such appointment provided that the educational professional and technical attainments which he possesses are deemed sufficient for the adequate performance of the duties of the appointment

5 The principles herein laid down are subject to the following general reservations, which local Governments and, under their instructions, officers subordinate to them will apply at their discretion —

- (a) The application of these principles must be consistent with the public interest
- (b) There must be no injustice to the claims of persons already in Government service who had no opportunity of rendering military service
- (c) No person may be appointed to a post the duties of which he is not competent to perform

The principles are also subject to such other reservations as any local Government, or in the case of posts under themselves the Government of India may deem proper to adopt

6 The Governor General in Council is also authorized to announce that the question of the application of similar principles to the services recruited in England is under the consideration of the Secretary of State

Home Department Resolution No. 2165, dated the 15th September 1921.

In the Home Department Resolution, No 1099, dated the 8th August 1919, certain concessions were granted in the matter of securing civil employment under Government to those who had rendered service in connection with the prosecution of the war. Since then, the Governor General in Council has had under consideration the question of granting concessions in respect of pensions to such persons as have rendered military services during the war, are employed in a civil department of Government and are not eligible for the concessions recently sanctioned for the candidates for various Imperial services and Departments who rendered service with His Majesty's forces during the war.

2 Any military service rendered with permanent units, which is pensionable under military rules but which terminates before a pension has been earned in respect of it, can be allowed to count, when followed by service qualifying for civil pension, as part of such service under the orders contained in the Secretary of State's despatch No 12 Financial, dated the 3rd February 1921, but service with temporary units, as also service rendered in the British army elsewhere than in India, does not count. In order to meet cases of this kind, His Excellency in Council, with the approval of the Secretary of State in Council is pleased to announce that civil employees who prior to their civil employment, have rendered satisfactory paid military services in the Great War, which does not ordinarily qualify for a service pension under military rules, shall be allowed to count such military service for the purpose of civil pension, subject to the following general principles being observed —

- (1) Completed years of military service shall be allowed to count up to a maximum of four years
- (2) In the case of services in which a minimum age is fixed for recruitment, no military service rendered below that age shall be allowed to count for pension
- (3) The addition of war service shall not be included in total service under Article 403 of the Civil Service Regulations for the purpose of leave counting as service for pension, nor allowed in addition to the concession in Article 403 or 404 A Civil Service Regulations, but any

Government servant who may be entitled to the concessions permissible under those articles and to the concessions announced in this Resolution, will be allowed to select *whichever is more favourable*

- (4) The scope of the concession shall be confined to an employee who retires on a superannuation or retiring pension
- (5) British and Indian military service shall be allowed to count alike for pension and no contribution towards, or share of a pension earned as a result of this concession shall be claimed from the Home Government
- (6) No refund of military bonus or gratuity shall be demanded from the employee

201. Decision to treat as supernumerary selected Lieutenant Colonels of the Indian Medical Service who have passed the age for compulsory retirement and to make promotions in their place

201

21st Mar.
1922.

In view of the suspension of retirements during the war and in order to safeguard the pay and prospects of officers of the Indian Medical Service, it was decided that selected Lieutenant Colonels retained in the service should be treated as supernumerary, promotions being made in their place as shown below —

| Classes of selected Lieutenant Colonels | Date from which promotion was made |
|--|---|
| Officers retained after the age of 55 or 30 years service | On completing 55 years of age or 30 years service whichever was later |
| Officers granted extra pensions under Army Regulations, India Volume I, paragraph 734 (now expunged) | From the 1st April following the year to which the pension related or on completing the age of 55 if the latter occurred earlier and within that year |

The decision ceased to be operative with effect from the 1st July 1920 under the provisions of Army Instruction (India) No 253 of that year. In view, however, of the continued shortage in the strength of the Indian Medical Service and the unsatisfactory state of recruitment, it has not been decided with the Right Hon'ble the Secretary of State's approval that, with effect from the 1st April 1919 and for so long as any officers of the Indian Medical Service who have passed the age for compulsory retirement are retained in the service selected Lieutenant Colonels who are retained after completing

27 years' service for pension or attaining 55 years of age shall be treated as supernumerary from whichever of these two is the later date, and promotions made in their place.

2. The Royal Warrant of the 16th February last [see Army Instruction (India) No. 751 of 1921] affects only officers placed on the list of selected Lieutenant-Colonels after the date of the Warrant. Those Lieutenant-Colonels who were already on the selected list on or before that date retain the right of remaining in the service to complete 30 years' service, although under the new scale of pensions they qualify for the maximum pension after 27 years' service.

3. In no case should an officer be retained beyond the age for compulsory retirement unless he is reported to be in all respects fit for the satisfactory discharge of the duties of his appointment.

4. The orders conveyed in this Instruction are subject to any reconsideration that may be found necessary hereafter.

4 If necessary expenditure may be incurred and paid provisionally in excess of these limits (subject however to the limits of the budget grant) but such expenditure will require to be ratified by the countersignature of the General Officer Commanding District or the General Officer Commanding in Chief of the Command to whom a monthly return in the prescribed form (see below) should be sent. The General Officer Commanding District and the General Officer Commanding in Chief have power in

consultation with the Controller concerned to authorise such expenditure up to the monthly limits noted below —

| | Rs |
|-------------------------------------|--------|
| General Officer Commanding District | 5 000 |
| General Officer Commanding in Chief | 15 000 |

If the expenditure in any one depot for any one month exceeds Rs 15 000 or exceeds the allotment of the unit concerned the General Officer Commanding in Chief will refer the matter to the Government of India for orders

5 Contingent bills will be signed by the supply depot or depot company commander as the case may be and where the countersignature of higher financial authority is required they will be submitted through the audit officer to the General Officer Commanding District for such further action as may be necessary together with vouchers for all items of expenditure exceeding Rs 25 and a certificate in the following form —

I certify that the expenditure charged in this bill could not with due regard to the interests of the public service be avoided. I have satisfied myself that the charges entered in this bill have been really paid. Vouchers for all items of expenditure above Rs 25 in amount and all work bills are attached to the bill. I have as far as possible obtained vouchers for other sums and I am responsible that they have been destroyed or so defaced or mutilated that they cannot be used.

6 Countersigning officers will satisfy themselves that the charges made in a contingent bill are of obvious necessity and are at fair and reasonable rates that previous sanction for any item requiring it is attached that the requisite vouchers are all received and in order that the calculations are correct and particularly that the expenditure does not exceed and at the current rate of progress is not likely to exceed the annual grant of the particular depot or depot company concerned. If in any month the monthly proportion of the budget allotment has been exceeded a short explanation of the special circumstances which rendered the excess necessary must be submitted along with the contingent bill.

7 In war time or when for other special reasons supply depot companies are administered directly by Army Headquarters the powers of sanction of contingent expenditure of the General Officer Commanding a District and General Officer Commanding in Chief will be exercised by the Deputy Director of Stocks and Quartermaster

General in India respectively in consultation with the Deputy Financial Adviser concerned Reports of all expenditure sanctioned by the Deputy Director of Stocks or Quartermaster General will be made to the Deputy Financial Adviser (Quartermaster General's Branch) who will communicate them to the audit officers concerned

- (a) Losses of stores of Rs 20 and under in value will be disposed of by the supply depot commander
- (b) Losses of stores of Rs 200 and under in value will be disposed of by the supply depot company commander

215 Procedure for dealing with losses in supply depôts of the Supply and Transport Corps

When any stores are lost destroyed found to be deficient through wastage or otherwise or damaged by fire or otherwise the storekeeper concerned is to be held personally responsible that an immediate report is made to the officer commanding the supply depot. The latter will take immediate steps to investigate the cause of the loss the amount involved and the circumstances of the case. 2. If the investigation of the officer commanding station shows that the loss is not due to theft fraud or culpable neglect the following procedure will be followed —

- (a) Losses of stores of Rs 20 and under in value will be disposed of by the supply depot commander
- (b) Losses of stores of Rs 200 and under in value will be disposed of by the supply depot company commander
- (c) Losses of stores exceeding Rs 200 in value will after investigation be reported by the supply depot company commander through the audit officer to the General Officer Commanding District who will dispose of losses after consulting the Controller concerned up to Rs 5 000 in value
- (d) Losses of stores exceeding Rs 5 000 reported as above to the General Officer Commanding District will be submitted to the General Officer Commanding in Chief of the Command

concerned. If the amount does not exceed Rs 15,000 in value it may be disposed of by the General Officer Commanding in Chief after consulting the Controller concerned. If, however, the amount exceeds Rs 15,000, the General Officer Commanding in Chief will report the case for the orders of the Government of India.

3. The authorities specified above as competent to deal finally with losses are also the authorities responsible for enforcing any disciplinary measures that may be necessary. Any such authority may require the person or persons responsible to make good any loss, in whole or part, which it is within the financial powers of that authority to deal with finally, and, when submitting cases for the sanction of higher financial authority, will express his opinion as to whether any person or persons should be required to make good the loss.

4. If the investigation mentioned in paragraph 2 above shows that the loss was due to theft, fraud or culpable neglect, the case will invariably be reported, with a complete statement showing the amount involved, the circumstances connected with the loss, and the person or persons responsible, through the above defined channel to the General Officer Commanding in Chief. In such cases the General Officer Commanding in Chief is authorised after consulting the Controller concerned to sanction the loss up to a limit of Rs 5,000.

In any one case, the irrecoverable value of the stores, always provided that, where a question arises of taking disciplinary action, the write off of such amounts as may be irrecoverable will be provisionally admitted in the accounts of the unit concerned, and will not be passed finally in audit until it is known whether or not any recoveries, as the result of disciplinary action are to be made. If the amount found irrecoverable exceeds Rs 5,000, the sanction of the Government of India is necessary before it can be finally passed in audit.

5. In every case of loss the value of the loss must be certified by the audit officer concerned, who will also state whether in his opinion any breach of audit rules has contributed to the loss.

6. In war time, or when for other special reasons supply depôts are administered directly by Army Headquarters, the financial powers of General Officers Commanding Districts and General Officers Commanding in Chief will be exercised by the Deputy Director of Stocks and Quartermaster

General, respectively, in consultation with the Deputy Financial Adviser concerned. Copies of all orders issued by the Deputy Director of Stocks or the Quartermaster General in India will be supplied to the Deputy Financial Adviser, Quartermaster General's Branch, who will communicate them to the audit officers concerned.

Explanatory note—The monetary limits specified in these instructions refer to each separate case of loss. It is not permissible to subdivide a case of loss with the object of bringing the amount within the financial powers of the authority dealing with it. On the other hand, in certain instances losses which may have occurred over a period of time would be treated as one transaction for example a loss of different categories of stores discovered at one stock taking.

2 With effect from 1st April 1922 the recovery rates for payment issues to warrant officers, non commissioned officers and men in receipt of clothing allowances will be in accordance with the "Priced Vocabulary of Clothing and Necessaries (India) 1920" Paragraph 10 of the preface to that publication is hereby cancelled

283. Revised quarterly rates of consolidated clothing and kit allowances for British troops.

Revised quarterly rates of clothing allowances for British troops are published as statement "A" of the Appendix to this Instruction. The revised rates will take effect from the 1st April 1922.

2 It has been decided that, from the date from which the revised clothing allowances take effect, recovery rates for articles of clothing and necessaries issued on payment will be in accordance with the "Priced Vocabulary of Clothing and Necessaries (India)" referred to in Army Instruction (India) No 952 of 1920.

3 A list of articles of public clothing and their periods of wear is published as statement "B" of the Appendix to this Instruction. The monthly rates of depreciation of these articles to be adopted for the purpose of affecting penal recoveries on account of losses, etc., will be arrived at by dividing ninetenths of the full rate by the number of months included in the full life.

4 The following amendments are made to the "Memorandum regarding the clothing accounts of British troops" published as an Appendix to Army Instruction (India) No 625 of 1921 —

Paragraph 4 is reconstructed as follows —

"4 Articles of public clothing will be accounted for in sections I, II, III and IV of the clothing equipment ledger (I A F C 863). Recoveries on account of articles lost or destroyed will be arrived at by taking the original value of the article less the monthly rate of depreciation for the period the article was in use. The worn out value is in any case the minimum charge to be made for an article lost or destroyed. If the life of an article is shortened, or if the article is damaged, owing to culpable neglect on the part of the wearer, an appropriate recovery will be made on the above principles."

Paragraph 8 is reconstructed as follows —

"8 Recovery rates for articles of clothing and necessaries issued on payment are laid down in the "Priced Vocabulary of Clothing and Necessaries (India)". The rates for

making and altering clothing issued free to British regimental soldiers and also for altering personal clothing when the cost is chargeable to the State will be fixed in Army Instructions (India). Men enlisted on or after 1st January 1920 who were supplied with part-worn clothing may be permitted, when such articles become unserviceable, to replace them by new ones at half the cost of the new articles."

Statements "A," "B," and "C" and also statement "D," as amended by Army Instruction (India) No 951 of 1921, are cancelled

5 Statement, "A" of the Appendix to this Instruction replaces statement "D" of the memorandum referred to in paragraph 4 above and should be substituted in all cases where the latter is referred to in the memorandum

6 Revised rates of clothing allowances for the Royal Air Force will be published in Royal Air Force Instructions (India) in due course

- 291 Revised rates of consolidated clothing and kit allowances for Indian troops and followers

291
11th April
1922

Revised quarterly rates of clothing allowances for Indian troops and followers are published as statement 'A' of the Appendix to this Instruction. The revised rates will take effect from the 1st April 1922

2 It has been decided that from the date from which the revised clothing allowances take effect the recovery rates for articles of clothing and necessaries issued on payment will be in accordance with the Priced Vocabulary of Clothing and Necessaries (India) referred to in Army Instruction (India) No 952 of 1920

3 A list of articles of public clothing and their periods of wear is published as statement 'B' of the Appendix to this Instruction. The monthly rates of depreciation of these articles to be adopted for the purpose of effecting penal recoveries on account of losses etc will be arrived

at by dividing nine-tenths of the full rate by the number of months included in the full life.

4. The following amendments are made to the "Memorandum regarding the clothing accounts of Indian troops and followers" published as an Appendix to Army Instruction (India) No. 70 of 1922.

Paragraph 4 is reconstructed as follows:—

"4. Articles of public clothing will be accounted for in sections I, II, III and IV of the clothing equipment ledger (I. A. F. C. 863-B). Recoveries on account of articles lost or destroyed will be assessed at the original value of the article less the monthly rate of depreciation for the period the article was in use. The worn-out value is in any case the minimum charge to be made for an article lost or destroyed. If the life of an article is shortened, or if the article is damaged, owing to culpable neglect on the part of the wearer, an appropriate recovery will be made on the above principles."

Paragraph 8 is reconstructed as follows:—

"8. Recovery rates for articles of clothing and necessities issued on payment or laid down in the "Priced Vocabulary of Clothing and Necessaries (India)." The rates for making and altering clothing issued free to Indian troops and followers and also for altering personal clothing when the cost is chargeable to the State will be fixed in Army Instructions (India). Men enlisted on or after the 1st April 1920, who were supplied with part-worn clothing, may be permitted, when such articles become unserviceable, to replace them by new ones at half the cost of the new articles."

Statements 'A,' 'B,' and 'C,' and also statement 'D' as amended by Army Instruction (India) No. 186 of 1922, are cancelled.

5. Statement 'A' of the Appendix to this Instruction replaces statement 'D' of the memorandum referred to in paragraph 4 above and should be substituted in all cases where the latter is referred to in the memorandum.

315. Instructions in regard to the method of effecting recoveries for supplies and services rendered on repayment by store depots.

615

25th April
1922.

With reference to the new system of store accounting approved in Army Instruction (India) No 788 of 1921, the following subsidiary instructions are issued in regard to the method of effecting recoveries for supplies and services rendered on repayment by store depots --

- (i) No valuation statements will be issued, as the total amount recoverable from the individual concerned will be shown in the two priced issue vouchers sent to him by the store depot. The officer in charge of the depot will arrange to send with these vouchers a memorandum in the form indicated in the Appendix to this Instruction, this memorandum will be completed and returned by the consignee together with one copy of the voucher and the treasury receipt (if any)
- (ii) When a treasury receipt for the amount due accompanies the returned memorandum the depot officer will note the number, date and amount of the receipt on the receipted voucher before passing the treasury receipt to the depot accountant. The latter will retain the treasury receipt as a supporting voucher to his schedule 31—Issues on Repayment—which is sent to the Controller with the monthly store accounts
- (iii) When the memorandum contains a promise of credit in a pay or establishment bill the depot officer will note the particulars of the promise

on the returned voucher and forward the memorandum through the depot accountant to the audit officer of the individual promising credit. The depot accountant before passing the memorandum on to the audit officer concerned, will note its number and date in his schedule 31.

- (iv) If the payee is not empowered to sign receivable orders, and payment into a treasury is necessary, the officer in charge of the store depot will send a receival order, duly completed, with the memorandum.
- (v) Officers in charge of store depôts are primarily responsible that recoveries on account of re-payment services and supplies are effected with reasonable promptitude and will bring to the notice of the district commander any case in which repayment is unduly postponed by the parties to whom such services or supplies are rendered. Their responsibilities cease however, as soon as either a treasury receipt or a memorandum promising credit through a pay or establishment bill for the amount due has been forwarded to the accountant officer concerned.

2 The above instructions are not applicable to issues to civil departments, the value of which is adjusted through the exchange accounts but are applicable to issues to government institutions and private individuals from whom cash payment has been hitherto required. In cases of doubt as regards issues to non military government institutions, the officer in charge of the store depot should consult the Controller of Military Accounts concerned as to the method of adjustment to be adopted.

ARMY INSTRUCTIONS (INDIA).

330. Issue of optical lanterns and slides for the educational training of British and Indian troops.

330

2nd May
1922

Sanction is accorded to the gradual issue to British and Indian units, on the following scale, of optical lanterns for educational training purposes —

| | |
|---------------------------------------|---|
| British cavalry regiment | 1 |
| Royal Horse Artillery brigade | 1 |
| British infantry battalion | 1 |
| Royal Field Artillery brigade | 1 |
| Royal Garrison Artillery brigade | 1 |
| Headquarters Sappers and Miners units | 1 |
| Indian cavalry regiment | 1 |
| Indian infantry regiment | 1 |

2 In stations where there are more than one but less than four Indian cavalry regiments or Indian infantry battalions, lanterns will be issued to one unit only. In stations where there are four or more Indian units two lanterns will be issued. The units to which the lanterns are to be issued will be decided by the officer commanding the station.

3 Some of the lanterns are fitted for acetylene gas and some for electric light. Indents for lanterns will be submitted to the Chief Ordnance Officer, Kailash Arsenal, according to the lighting arrangements in the station in which the indenting unit is located.

4 Under no circumstances will any lantern be removed from the station to which it is originally issued. When units move in relief the lanterns will be handed over to the relieving units, this applies to both British and Indian troops.

5 Units in possession of lanterns are responsible that they are handed over complete and in good condition.

6 Owing to the costly nature of these lanterns it is impossible to issue them to all units and it must be clearly understood that they are not to be considered as exclusive property. They are to be available for loan to other units in the station and for the instruction of men of other units invited to attend an exhibition of slides and lectures when given by the units which are in possession of the lanterns.

7 Slides for use with the lanterns are in sets of approximately 5 000 each and four sets only are available in India. Each command headquarters will be provided with one set for circulation to units within the command. Subsidiary instructions for the circulation of the slides will be issued separately.

8 All charges on account of the lighting (i.e. electric current or carbide of calcium) required for these lanterns are to be met from the educational training grant now given to units.

G. FELL,

Secretary to the Government of India

APPENDIX TO ARMY INSTRUCTION (INDIA) No 337 of 1922.

Finance Department letter No. 276-Accts., dated the 25th March 1922, to the Military Accountant General.

I am directed to inform you that the Government of India have had under their consideration the following matters connected with the assessment of income tax of pay earned by officers of the Indian Army serving in Mesopotamia, etc

2 Representations had been received to the effect that Indian income tax was being deducted from arrears of pay earned by officers in India, and that the Government of India, On enquiry, had stated credit balances of pay earned prior to 28th September 1920 whether drawn in the field or in India before or after that date were not taxed at all and that pay earned by officers overseas after that date had been charged with income tax under the British income tax regulations only, wherever it had been drawn. The tax so recovered had been credited to the revenues of the United Kingdom.

3 It was, therefore, considered necessary to make clear to all officers concerned the position as here described in which they would place themselves by continuing to draw part of their pay in India, but on the matter being referred to the Secretary of State, it has been agreed by the Inland Revenue Authorities in the United Kingdom that the officers in question should be allowed a rebate of British income tax equal to the amount of tax charged in India on the portion of their pay allotted for payment in India provided that the officers should not in future be allowed to remit a portion of their pay to India to be charged at Indian income tax rates and to draw the remainder in the field to be charged under the British income tax regulations.

4 The Government of India have accordingly decided that Indian income tax should be levied on pay or accumulation overseas but drawn in India. Such income tax No recoveries are to be

made in respect of any period prior to the date mentioned Income tax under British regulations will of course continue to be levied on the whole amount of pay and officers affected will be required to make their own arrangements to obtain any rebate admissible in respect of the portion of the pay allotted for payment in India

5 You are requested to instruct Controllers to bring to notice any case in which it appears that an-attempt is being made to take undue advantage of the concession of rebate herein authorised

Marriage Allowance — With reference to Army Order No 357 of 1920, it has been decided that marriage allowance will not be issuable in respect of the children for whom pensions is being drawn, of a soldier's widow married to a serving soldier.

In order to carry this into effect, the following procedure will be adopted —

- (a) In every case where a first claim for marriage allowance is received paymasters will take steps before authorizing the issue in respect of children of whom the soldier is not the father, to ascertain whether pension is being issued for any of those children, reference being made to the Pensions Issue Office if necessary.
- (b) The Pensions Issue Office has arranged to notify paymasters of all cases of widows in receipt of pensions in respect of their children who have remarried serving soldiers (or civilians who have since become serving soldiers). On receipt of such a notification the paymaster will take steps to discontinue at once the issue of marriage allowance in respect of the children concerned, informing the woman of the reason of this action.

Should any cases come to the notice of a paymaster in which although no notification has been received from the Pensions Issue Office it appears probable that pension is being issued the paymaster will refer to the Pensions Issue Office for information.

Children for whom pension (and consequently no marriage allowance) is being drawn will be ignored for the purpose of assessing the rate of marriage allowance issuable in respect of any other children of the soldier.

| I A F C 869 B | Company indent for personal clothing and necessaries on payment (Indian troops and followers) |

2 Instructions for their use are contained on the forms. In amplification of these instructions supplementary orders are published as an Appendix to this Instruction.

3 Paragraph 10 of the 'Memorandum regarding the clothing accounts of British units in India' published as

an Appendix to Army Instruction (India) No 025 of 1921, is reconstructed as follows —

The following is the procedure to be adopted in respect of issues of personal clothing and necessaries to individual soldiers —

Issues on payment — The company commander* will prepare and send to the quartermaster once a month an indent in I A F C 869 A, for all the articles required by his men on payment during the month. The quartermaster having completed the form will prepare in duplicate an abstract in I A F C 868 A showing the monthly summary of payment issues of clothing and necessaries and return the indent to the company commander with the abstract in duplicate together with the articles shown in the abstract. The company commander will acknowledge receipt of the articles to the quartermaster on the original copy of abstract which will support the connected entries in the regimental clothing ledger (I A F C 863). To enable the accountant with the unit to charge up the amounts due from the men concerned against their accounts in the company pay list the company commander will prepare a cash summary of the indent in I A F C 866 which will be sent at the end of the month together with the pay bill, acquittance roll and the duplicate copy of the abstract in I A F C 869 A to the accountant. Under this procedure the indent remains on record with the company, the original copy of the abstract in I A F C 868 A, with the quartermaster as a supporting voucher to the ledger and the summary in I A F C 866 and the duplicate copy of the abstract in I A F C 869 A with the accountant as cash vouchers supporting the pay list. The duplicate copy of the abstract in I A F C 869 A enables the accountant to see whether the valuation made by the quartermaster is correct and whether the total amount entered in

* The term "company commander" is used throughout for the officer commanding a battery, squadron or company.

I A F O-866 agrees with that shown in the abstract

Free issues—The procedure laid down in clauses (f) (g), (h) and (i) of paragraph 7, Clothing Regulations (India) 1919, will be followed. It must be borne in mind however, that under the clothing allowance system free issues of personal clothing and necessaries are only admissible in the following circumstances—

To recruits, boys, and to soldiers on arrival in India and to soldiers permanently transferred to the Royal Air Force (see Army Instruction (India) No 869 of 1918)

APPENDIX TO ARMY INSTRUCTION (INDIA) No 414 of 1922

Finance Department letter No. 927-F., dated the 28th
March 1922

I am directed to forward an extract from the Indian Finance Act, 1922, prescribing rates for the levy of income tax and super tax during the year 1922-23 and to request that (with the permission of His Excellency the Governor-in-Council His Honour the Lieutenant Governor), it may be circulated to all officers concerned

2 I am also to invite attention to a change in the procedure in regard to the deduction of tax from salaries introduced by the Income tax Act, 1922. Under Section 15 (2) of the Income tax Act, 1918, where a sum received as "salary" was a non-recurring item, it was to be taxed at the rate appropriate to that particular sum as if it were the whole of the assessee's income. This gave rise to a considerable amount of unnecessary trouble to assessee's owing to adjustments that had to be made in the amount and rate of tax every year. Section 18 (2) of the new Act provides that deductions from salaries shall approximate as as possible to the previous

Extract from the Indian Finance Act, 1922

1 (1) This Act may be called the Indian Finance Act
1922

7 (1) Income tax for the year beginning on the first day of April 1922 shall be charged at the rates specified in Part I of the third Schedule

(2) The rates of super tax for the year beginning on the first day of April 1922 shall for the purposes of section 55 of the Indian Income tax Act 1922 be those specified in Part II of the third Schedule

(3) For the purposes of the third Schedule total income means total income as defined in clause (15) of section 2 of the Indian Income tax Act 1922

436 436 Use of "Cells, electric, inert, 'S'," in lieu of certain dry batteries

30th May
1922

It has been decided that pending the re design of certain types of small dry cells now in the service, Cells, electric inert S will be issued instead

2 When existing stocks are exhausted, the use of the following will for the present be discontinued —

Batteries, dry refills, 44 cell

Batteries, dry refills, 24 cell

Batteries, dry refills, 22 cell

Batteries, dry refills, 12 cell

3 Issue of 'Cells, electric, inert, 'S'', will, therefore, be made in satisfaction of demands for dry batteries, and the cells will be made up locally into batteries. This will entail the "S" battery being used externally as in most cases it will not fit into the dry battery compartment. Instructions for fitting terminals to instruments for this purpose will shortly be issued.

4 Cells, inert, are to be used instead of dry cells wherever possible for lamps electric signalling, daylight, telephones, apparatus illuminating sights and batteries for wireless telegraphy.

5 As the inert 'S' cells last about six times as long as the small cells in H 1 batteries a correspondingly smaller number will be issued for maintenance purposes.

6 When inert cells are used in boxes (e.g., battery, 200 volt, large) they must be frequently inspected and wiped over. Lids of such battery boxes must not be screwed down.

7 To reduce loss from the creeping or leaking of inert cells to a minimum, the following precautions will be taken —

- (a) 24 hours after being rendered active superfluous moisture must be shaken out from the cell.
- (b) The cells must be inspected and wiped over frequently.
- (c) Corks must be kept tight.
- (d) Instruments must be stored so that the cells are upright with terminals on top.
- (e) When cells must lie on their sides in use they must be so arranged that the vent hole is over the cork of its own cell and not over a terminal either of its own cell or of any other cell.

APPENDIX TO ARMY INSTRUCTION (INDIA) No. 450 of 1922.

Extract from Army Department letter No. H.-1410, dated
23rd February 1916.

The Government of India have decided that, with effect from the 23rd February 1910 and until the end of the war, a sum of Rs. 50 instead of Rs. 30 as at present, shall be considered available for the payment of temporary clerks employed in vacancies existing in the lowest grade of the clerical establishment of the Supply and Transport Corps.

2. It is desirable that the local authorities should be empowered to disburse the amount available in the manner best calculated to promote an efficient clerical service in the Supply and Transport Corps. The following conditions, which will govern the pay of clerks holding temporary appointments in the Supply and Transport Corps during the war, are framed with that object:—

- (a) The complement of clerks in each division upon which vacancies shall be assessed, is the authorised peace complement for that division.
- (b) All clerks on service (including clerks invalided from field service who are not doing duty in India) and clerks on detached duty in other divisions will create vacancies in the divisions which they have left.
- (c) Clerks on sick leave in India create vacancies (for purposes of pay) to the extent authorised in the Civil Service Regulations. In such vacancies the pay available in the lowest grade will be Rs. 50.
- (d) Re-employed pensioners will be regarded as filling temporary vacancies; and the pay, supplementary to pension which they receive under Army Department letter No. H.-1408, dated the 23rd February 1916, will be debitable against the amount which the orders in this letter make available for the payment of temporary clerks.

(c) The total pay available in any office in any one month may be disbursed at the discretion of the responsible officer as he thinks fit, subject to the following conditions, viz:—

- (i) No re-employed pensioner can receive more, in pay and pension, than the pay of the appointment from which he retired.
- (ii) No temporary clerk, not a pensioner, may receive more than Rs. 160 a month.

The responsible officer is not required to employ the number of clerks for whom there are vacancies in order to entitle him to draw the amount available in those vacancies.

Rules

The Secretary of State for India in Council has decided that the retirement under the provisions of the Royal Warrant of the 25th April 1922 of British officers of the Indian Army who may be decided to be surplus to requirements shall be governed by the following rules. The selection of officers for retirement under these rules will be made from among those whose date of commission for promotion in the Indian Army falls between 1st January 1915 and 31st December 1918 both dates inclusive.

(1) (a) An officer if in India will be granted entitled to payment of mess in the United Kingdom or to select (or be granted) facilities with any sailing orders he may receive from Government, and notifies his selection within such period as may be prescribed.

(b) An officer if in the United Kingdom will receive passage to any port in the British Empire for himself and family (less payment of messing charges for his family) or be granted an allowance in lieu provided he has not already received a passage under (a) and provided he claims the passage within such period as the Secretary of State for India in Council may prescribe.

(c) If an officer is in India and his family in the United Kingdom or *vice versa* the family may be granted passage (less payment of messing charges) or an allowance in lieu to any port in the British Empire outside India and the United Kingdom to which the officer himself is granted passage or an allowance in lieu or (in the second case) to the United Kingdom if the officer is remaining there provided the passage is claimed within such period as may be prescribed.

(d) An officer in the United Kingdom unless granted a passage to an Indian port may have his and his family's baggage conveyed free from India to the United Kingdom or to any port to which he is himself granted passage.

(e) The amount of baggage of the officer and his family which may be shipped free under (a) (b) (c) or (d) will be limited to double the sea scale laid down in paragraph 104, Army Regulations India Volume X.

(f) The grant of passage or allowance in lieu to an officer or his family will also carry the right to free conveyance by rail to the port of embarkation but not to payment of any travelling expenses in the country in which he or they disembark

(2) (a) An officer, if in India, will be regarded as on duty in the appointment he last held up to date of embarkation from India to the United Kingdom provided he embarks as directed or in the case of an officer who does not proceed to the United Kingdom to such equivalent date as the Government of India may direct. From the date of embarkation or from such date as the Government of India may prescribe as to be taken as the equivalent thereof, the officer will be granted such full pay leave as may be admissible under regulations or two months leave on the full pay of his substantive rank and appointment whichever may be more advantageous to him

(b) The officer, if on leave on private affairs in the United Kingdom on the date on which he is informed that he will be retired will from such date as the Secretary of State for India in Council may prescribe be granted one month's leave on the full pay of the substantive rank and appointment held by him in India. A date equivalent to that of embarkation from India will be prescribed for the purpose of rule 7. Ordinarily this will be taken as the date on which the month's special full pay leave starts

(3) An officer in Mesopotamia will return to India on duty on the pay of his last appointment in Mesopotamia, and will then come under the provisions of paragraphs 1 and 2 applicable to officers in India

The provisions of 1 (a) (c) (c) and (f) and 2 (a) will apply to an officer serving in Egypt, Palestine or the Black Sea Area those countries being substituted for India therein. Conditions similar to those in paragraphs 1 and 2 will be specially fixed for the case of any officer serving elsewhere than in the United Kingdom, India or one of the countries named in this paragraph

(4) From the expiry of the full pay leave referred to above, the officer will be retired from the Army and will be under no further obligation for service. If any doubt arises as to the correct date of retirement under these rules, either owing to misunderstanding of sailing orders or from any other cause, the Secretary of State for India in Council shall fix a date

(5) An officer who is on leave on medical certificate when he is informed that he is surplus to requirements will either (i) be retired under the Royal Warrant of 25th April 1922, when he has been passed fit for service in India or (ii) be retired on an invalid pension under the ordinary rules when he has been found unfit for further service in India provided that he is found either fit or permanently unfit within two years from the date on which he was struck off duty on proceeding on sick leave. An officer who at the end of two years from that date has neither been found fit nor permanently unfit will then be given the option of retiring forthwith under these special rules or on an invalid pension. The same option will be given to an officer who is on the temporary non effective list when he is declared to be surplus.

In all cases of retirement on the special terms under this paragraph the question of the grant of any leave under paragraph (2) of the date up to which service for gratuity shall count and of the date on which his rights under paragraph (1) shall come into force will be specially considered and decided as the Secretary of State for India in Council may determine.

(6) On retirement an officer will be entitled to draw a gratuity of the amount laid down in paragraph 7 at any time he desires between the date of retirement and the date three years therefrom on giving notice in writing to the Accountant General India Office if payment is to be made in the United Kingdom (or elsewhere except in India) or to the Military Accountant General India if in India. Payment will then be made as soon as possible to any bank in the United Kingdom or India. [See also (12) below.]

(7) The amount of the gratuity will be £850 for subalterns and £1250 for captains with the following increments for each year's service in the substantive rank held on retirement —

- (i) for subalterns with increments at the rate of £75 a year for the period of service in the rank of 2nd Lieutenant or Lieutenant from the date of his first commission as adjusted after appointment to the Indian Army with on addition at the rate of £60 a year for any period of commissioned service prior to that date which under Indian regulations is allowed to count for pension but not for promotion,

(ii) at the rate of £150 a year for the period of service in the substantive rank of captain, as adjusted after entering the Indian Army

The period of service under (i) and (ii) will in each case be calculated to the nearest completed month one twelfth of the appropriate yearly increment being admissible for each completed month

Service for the purpose of this rule will be considered to terminate on the date of embarkation or prescribed equivalent date [or date specially fixed under rule (5)] Rank will be reckoned as adjusted after entering the Indian Army. An officer promoted captain after the termination of gratuity earning service will receive gratuity as for a lieutenant

If paid in India the gratuity will be converted into rupees at the rate of exchange as communicated weekly to Controllers of Military Accounts by the Military Accountant General, in force on the date of the officer's application

(8) From the date of retirement up to the date on which the gratuity is issued an officer will be entitled to an allowance at the rate of £200 per annum if single and £300 per annum if married (subject to a maximum period of three years). If the allowance is drawn in India it will be con-

will cease (subject to paragraph 9) on the issue of a form for the payment of the gratuity. The gratuity will not be paid until the officer notifies his desire to draw it except that it will be issued at the end of three years if he has not previously signified his desire

(9) An officer may at any time after he has been informed that he will be retired under these rules and before he receives the gratuity draw in advance a portion of the gratuity not exceeding 15 per cent of it in the case of a single officer and 20 per cent in the case of a married officer. The receipt of this advance will not prejudice the officer's right to draw the allowance mentioned in paragraph (8) until he receives the balance of the gratuity. No part of the gratuity in excess of the above limits can be drawn without forfeiting the right to continue to draw the allowance. Any advance drawn in India under this rule will be converted into rupees at the rate of exchange as communicated weekly to Controllers of Military Accounts by the Military Accountant General prevailing on the date of the officer's application for the advance

(10) For the purpose of rules (8) and (9) an officer will be regarded as single if he married after the date of his retirement or if he is a childless widower, or if he is separated from his wife and children (if any) and does not contribute to their support

(11) No assignment of or charge on the gratuity will be recognised by the Secretary of State for India in Council

(12) Payments of gratuity or allowance in the Colonies will ordinarily be arranged through the officer paying pensions in the Colony but all applications on the subject should be sent to the Accountant General, India Office, except to obtain transfer of payment of the allowance from India to a Colony, when the Military Accountant General, India, should be addressed

(13) If an officer dies after the date of his retirement and before he has drawn the gratuity, the issue of the allowance will cease with the date of his death, and the gratuity or any balance thereof, will be credited to his estate

(14) An officer who receives an advance of gratuity under paragraph (9) before the date of his retirement, and whose retirement under these rules is for any reason not eventually carried out, will be required to repay the advance by such instalments as Government may direct. In the event of his death before retirement the question of recovery will be specially considered

(15) From the date of retirement an officer will cease to be eligible for the benefits of any of the provisions of the "Royal Warrant for Pay" relating to widows and families pensions

(16) From the date of retirement an officer will not be allowed to continue to subscribe to the Indian Military Widows' and Orphans' Fund and he and his family (if any) will have no claim to benefits under the rules of that Fund

All contributions paid by an officer whether married or unmarried, during the term of his membership will be refunded under conditions which will be notified hereafter

(17) In the event of an officer retiring under the Royal Warrant of 25th April 1922 and these rules obtaining employment under the Crown, not paid out of Indian revenues no claim that any part of his service in the Army should be considered as pensionable service for the purpose of his new employment will be admitted against Indian revenues

(18) The foregoing rules are not applicable to an officer who having been retired from the Army, under the provisions of the Royal Warrant of 25th April 1922 may accept a permanent civil post under the Crown in India. In such cases the conditions of his retirement and re employment will be specially considered by the Secretary of State for India in Council.

(19) The position of an officer who has been seconded from the Indian Army to undergo a course at a university either on probation for a civil post under the Crown or otherwise who would but for his seconding come under these rules will be especially considered and the Secretary of State for India in Council will prescribe such conditions regarding the retirement of such an officer as he may think fit.

(10) For the purpose of rules (8) and (9) an officer will be regarded as single if he married after the date of his retirement or if he is a childless widower or if he is separated from his wife and children (if any) and does not contribute to their support

532. Powers in respect of Military Works

4th July
1922.

1 The following instructions, which are in supersession of those contained in Army Instruction (India) No 381 of 1921, will have effect from the 1st April 1922. Amendments to regulations will be issued in due course.

2 *The Military Works Budget and Schedule of Demands*—(a) The Schedule of Demands and the Military Works Budget, commencing with the year 1923-24, will be arranged under the headings shown in the Appendix to this Instruction.

(b) In submitting the Schedule of Demands, the expenditure as far as is known, for the 3 previous years must be given for each of the sub heads under the main heads B, C and D of the Appendix. In addition, the total capital values of buildings or lengths of roads as the case may be, must be stated for each sub head under "Repairs" (BX of the Appendix), as well as the total anticipated credits on account of establishment charges.

(c) The Schedule of Demands must be submitted by General Officers Commanding in Chief, Commands and Independent Districts, Superintending Engineer, Simla Imperial Division, and the Commissioner, Port Blair, so as to reach the Quartermaster General by the 1st August.

(d) On receipt of intimation of the orders of the Government of India on the Military Works Budget—

(i) The Quartermaster General in India will notify to General Officers Commanding in Chief of Commands the grants as distributed by him under all heads for works, repairs, etc., in their respective areas. General Officers Commanding in Chief, will then prepare and submit for approval their budgets and inform local Governments and Administrations of the grants allotted for works, etc., to be carried out by their Public Works Department. Local Governments and Administrations will prepare their budgets on receipt of the above information from General Officers Commanding in Chief.

(ii) Budgets for Aden and Waziristan Districts, Simla Imperial Division and Port Blair will be prepared by the Quartermaster General in India, who will also notify to the General Officer Commanding, Burma District, the

grants passed for his District, to enable the Burma Government, in the Public Works Department, to prepare their budget

(e) Final Budgets are to be arranged by Accounts Districts, the reserves at the disposal of General Officers Commanding in Chief Commands, and the Quartermaster General being shown separately

3 *Classification of works* — (a) For purposes of control over expenditure by Army Headquarters certain classes of works will be designated as follows —

- (i) *Category "X"* — Where it is desirable to ensure that the total provision for a particular class of work shall not be diverted without reference to Army Headquarters the category embracing their works will be marked X in the Budget. For example, under the sub-head A II (2) of the Appendix to this Instruction all works on reconstruction of Indian troops lines might be marked "Category X". Reappropriations to or from works so marked are subject to the restrictions stated in paragraph 5 of this Instruction
- (ii) *Class "A"* works are individual works, the expenditure on which will be controlled by Army Headquarters
- (iii) *Class "B"* works are all such works as are not marked "Category X" or "Class A" and in connection with which control over expenditure is exercised by Commands or Districts

The Quartermaster General will give the classification either when issuing orders for the preparation of the budget, wherein entries will be made accordingly, or when issuing orders for the commencement of a new work which has not been specifically included in the budget. Unless specifically classed as Category X or Class A, all works will be treated as Class B

(b) Works are classified as "Major" and "Minor"

(i) Major works are those costing over Rs 10,000

(ii) Minor works are those costing between Rs 10 and Rs 10,000

(iii) Any work costing less than Rs 10 is treated as a repair

(iv) If when carrying out repairs to a building etc, the capital value is increased by the substitution of a superior for an inferior class of work or for any other reason the amount of the increase in the capital value will be transferred from the head repairs to works for purposes of accounting

(c) Works are further classified as Authorised and Unauthorised

(i) An authorised work is one of a kind that has been authorised by Government either in the regulations or by separate orders of general or specific application. In addition any work that it is customary to provide for troops e.g., water supplies temporary cookhouses in standing camps etc may be regarded as authorised

(ii) An unauthorised work is one that does not fall within the above categories. Subject to the limitations which are stated below unauthorised works may be sanctioned by subordinate military authorities if exceptional local conditions of urgency exist or by way of making an important experiment. But unauthorised works should not be sanctioned if the effect of such sanction would be to prejudge the general adoption of a new practice or change of scale

(iii) When according administrative approval to a work it should be stated whether the work is authorised or unauthorised. If authorised the authority should be quoted and if unauthorised the grounds should be stated on which it is held to be covered by the provisions of clause (ii) preceding

4 Powers of administrative approval—(a) Administrative approval may be defined as the decision of competent administrative authority to carry out a particular work at a specified cost in the near future as funds become available. The estimate of cost which must embrace all expenditure to which Government will be committed will in every case have to be accepted by the Engineer Adviser of the authority concerned. When communicating sanction the source whence funds are to be provided must invariably be specified

(b) The powers of administrative approval are subject to the pecuniary limits stated below and to the conditions noted in clauses (c) *et seq* —

(c) The powers of a General Officer Commanding in Chief here stated are subject to the condition that no work, the total cost of which exceeds Rs 2 lakhs shall be put in hand unless the General Officer Commanding in Chief can from funds at his disposal allot at least 40 per cent of the total cost for expenditure in the year in which the work is commenced and is prepared so far as he can do so to guarantee that the funds required for completion will be available in future years from the grant normally placed at his disposal. This condition is supplementary to those stated in paragraph 7 below.

(d) In the case of officers' quarters, messes and lady nurses' quarters the powers in respect of all unauthorised works under A are limited to Rs 1,000 and under B to Rs 200. Authorities under C to F have no powers.

(e) The purchase or sale of land or of an interest in land or of any building, etc., requires the approval of the Government of India. The purchase whether of an installation or of immovable property, which necessitates negotiations with a public body, requires similar approval. The hiring of buildings or land for a temporary purpose may be approved on an annual lease only by the authorities under A and B, but any other agreement for hire requires the approval of Government.

(f) If, before a work is commenced, changes or additions are needed, fresh (not revised) approval must be accorded. If, during the progress of the work, additions are needed for administrative (not engineering) reasons, approval must be accorded to a supplementary estimate, the amounts of which, added to the amount of the original estimate, must not exceed the powers of the approving authority. In the case of estimates sanctioned by the Secretary of State for India or the Government of India, supplementary estimates must be approved by Government. If, after the work has commenced, changes, which are not of the nature of additions, or additions on account of engineering reasons, are found necessary, a revised estimate must be approved by competent authority.

(g) The Quartermaster General has the same financial powers as a General Officer Commanding-in-Chief, in respect of those districts which are directly controlled by Army Headquarters as well as of those services which are directly administered by the Quartermaster General, e.g., arsenals.

5. (a) *Funds for Military Works.*—Funds for Military Works are provided under the head "50—Military Works." Any transfer of funds to or from "50—Military Works" or provision under that head requires the sanction of Government.

(b) Reserves for expenditure on major works and on "standing charges" will be placed at the disposal of General Officers Commanding-in-Chief Commands and the Quartermaster General.

(c) A separate grant will be made for minor works to General Officers Commanding-in-Chief Commands, who will distribute it to General Officers Commanding Districts and Independent Brigades, who in turn may allot sums for expenditure to General Officers Commanding or Officers Commanding Brigade Areas, Brigades or Stations. A grant will also be reserved by the Quartermaster General for distribution among the local administrations, districts or

heads of services and departments under the direct control of Army Headquarters

(d) The Quartermaster General may carry out any reappropriations whatsoever within the grant under 50—Military Works except as regards Home provision

(e) A General Officer Commanding in Chief Command may carry out the following reappropriations —

- (i) From one work to another within any particular category marked X in the Budget

(f) A General Officer Commanding District or Independent Brigade, or a local Government under their own rules may carry out the following reappropriations —

- (i) Between class B works in progress up to a limit, for each work of Rs 50 000 during the year, but not from a class B work to minor works
- (ii) Between the detailed heads of each of the sub heads Repairs and Renewals Maintenance of installations and General charges, but not between these sub heads

(g) When a Local Government is concerned, their prior consent must be obtained to any reappropriation

(h) If the orders of Government on the budgets under 50—Military Works have not been received by the commencement of the financial year expenditure may be incurred on all the items and within the limit of the amounts provisionally intimated by the Quartermaster General in his preliminary issue of the Budget excluding only major works not yet commenced

(i) All reappropriations or allotments except those from reserves are subject to the condition that a certificate

is obtained from the Audit Officer, to the effect that funds are available

(b) An officer officiating as Director Military Works or Deputy Director Military Works Command will exercise the full powers given above. An officer officiating as a Deputy or Assistant Director Military Works of a district will exercise the powers of a Deputy Assistant Director Military Works unless specifically given full powers by the Deputy Director Military Works Command. An officer officiating as a Deputy Assistant Director Military Works will be limited to the powers of a Garrison Engineer subject to such enhancement up to the full powers of a Deputy Assistant Director Military Works as may be specifically accorded by the Assistant Director Military Works of the district. The Director Military Works may in special cases authorise a Deputy Assistant Director Military Works by name to exercise the full powers of an Assistant Director Military Works. The powers of a Garrison Engineer may be limited by the Deputy Assistant Director Military Works as he may think fit and the Director Military Works or Deputy Director Military Works Command may in special cases authorise a Garrison Engineer by name to exercise the full powers of a Deputy Assistant Director Military Works.

(c) Subject to the conditions that the total expenditure does not exceed the financial powers of the authority accorded administrative approval and the technical powers of the Military Works Services officer concerned, an excess over an estimate up to 10 per cent of the amount to which administrative approval has been accorded will be passed in audit. Of this 10 per cent not more than 5 per cent may be authorised when sanctioning the detailed estimate which must always take into account contractors, tenders, the balance of the 10 per cent indicates the limit of excess which may be incurred over the detailed estimate during construction. Immediately it is apparent that an excess of more than 10 per cent is likely to be incurred or that the financial and technical powers of the approving authorities are being exceeded, a report must be made to higher authority who if necessary will call for a revised estimate. No excess whatever is permitted over the amount of a revised estimate.

(d) If the amount of a detailed estimate exceeds the amount approved administratively by more than 5 per cent revised administrative approval must be obtained. Where however a work forms a sub head of a project sanctioned by the Government of India or by the Secretary of State for India the Director Military Works is empowered to meet

any excess over 5 per cent if he can do so by transferring savings that have actually occurred on completed sub heads of the project or by ordering specified savings to be effected on sub heads not yet commenced

(e) The powers of sanction to excesses over estimates do not empower officers to exceed their allotments by more than Rs 500, without obtaining an allotment to cover the expenditure

(f) A detailed estimate is not required for any work or repair, etc., of which the estimated cost is less than Rs 1,000

(g) All sanctions under (a) (ii) and (iii) above lapse at the end of the financial year, except in the case of estimates for special repairs or renewals

(h) Provided that the total grants in each case are not exceeded, the Director Military Works and a Deputy Director Military Works, Command have full powers of re appropriation within their grants for establishment and suspense. The Director Military Works alone may sanction an increase to the stock limit of a Command

7 Conditions regulating the execution of work—

(a) The fundamental conditions that must be fulfilled before any work can be put in hand are that administrative approval has been accorded, technical sanction has been given to the detailed estimate and that funds have been allotted to the extent necessary to cover the expenditure to be incurred within the year. A notification of each of these 3 steps must be sent to the Audit Officer before he will pass finally any payment on account of the particular work, etc

(b) If an audit officer is of opinion that any particular administrative sanction etc., is *ultra vires*, he is empowered to accept it provisionally but he would refer such cases forthwith for orders to the competent authority

(c) In the case of imminent danger to buildings, etc., when a reference to competent authority would be seriously detrimental to the public service, the local Military Works Services or Public Works Department officer is empowered to take such steps as he considers necessary to protect Government property or the inhabitants, etc., on the condition that he at once makes a report to his superior officer, stating the liability he is incurring. The executive officer will take immediate steps to regularise the expenditure and

if beyond his competence, he will report the matter to the competent authority and to the audit officer

(d) On the ground of urgent military necessity, when reference to competent authority would mean dangerous delay, the Officer Commanding station or any authority superior to him is empowered to order the commencement or continuance of any work, etc., without any of the fundamental conditions mentioned in (a) above having been fulfilled, provided that he furnishes on order in writing to the Military Works Services or Public Works Department officer concerned and furnishes a copy of his orders to his superior officer. The officer directed to carry out the work will at once send a report stating the probable liability he is incurring to superior authority and to the audit officer

1922

With reference to Army Instruction (India) No 308 of 1922, scrutiny of unit returns has revealed the fact that in some instances non commissioned officers posted to —

- (a) the permanent regular staff of the Indian Auxiliary Force under India Army Order No 550 of 1920, and
- (b) the permanent regular staff of Schools of Instruction under the various Army Instructions (India) sanctioning the formation of the Schools

are shown under section B and included in column 2, section A, of the return

2 As these non commissioned officers are borne supernumerary to the establishment of their units for a period of 3 years, and regimental promotion is made in their place they should not be included in the authorised establishment of the unit under section B or in column 3 section A, of the return

3 In order to include this personnel in the return an extra column numbered 42A, shall be inserted and headed " Supernumerary to establishment of unit under various Army Instructions (India), and India Army Order No 550 of 1920 " The numbers of such non commissioned officers will be shown in the following manner —

" Indian Auxiliary Force—5, Schools of Instruction
—2 "

4th July
1922.

It has been decided that the following instructions regarding estimates for annual repairs and maintenance will be followed, in future, in partial supersession of those contained in paragraph 121 of Army Regulations (India), Volume XII —

- (a) The Director of Military Works (in case of Independent Districts) and Chief Engineers (in case of Commands) are empowered to fix the month which is to be considered as the last month of the working year for the purpose of annual maintenance and repair estimates. The date fixed should be uniform throughout the Command or District in the case of Independent Districts. Each ordinary repair estimate should include the whole expenditure which it is anticipated will be incurred during the working year on the maintenance of the work concerned.
- (b) The sanction to an ordinary repair or maintenance estimate (other than one for "special repair") lapses on the last day of the year fixed by the authorities mentioned above. If, however, inconvenience would arise in any exceptional case from the stoppage of the work on the fixed date, the repairs may be carried on to completion, the expenditure after that date being treated as expenditure against a fresh repair estimate for the next working year.

2 The above changes will in no way affect existing budget arrangements for the provision of funds

3 The necessary amendments in the regulations will be made in due course

553 Trade tests for British ranks in India

4th July
1922

With reference to the orders and instructions cited in the margin, it has been decided to apply to India, the system of carrying out the trade tests of British ranks prescribed in Army Council Instruction No 789 of 1920 with modifications, where necessary, to suit Indian conditions

Army Order No 325 of 1911
 Army Council Instruction No 89 of 1920
 Army Council Instruction No 527 of 1921
 Army Council Instruction No 85 of 1922
 Army Instruction (India) No 323 of 1920
 Army Instruction (India) No 617 of 1920
 Army Instruction (India) No 910 of 1921
 Army Instruction (India) No 336 of 1922
 India Army Order No 122 of 1920
 India Army Order No 679 of 1920

2 General Officers Commanding in Chief will arrange to establish—

- (a) Command testing boards to co ordinate and control the arrangements for carrying out tests within their command

The General Officer Commanding the Burma District will establish a district testing board to act in the same capacity as a command testing board

- (b) District and station boards as may be required (corresponding to the Area boards referred to in paragraph 11 of Army Council Instruction No 789 of 1920)

In cases where an officer technically qualified in a particular branch is not available as a member of a district or station board a technically qualified warrant officer may be attached as an adviser under the authority of the General Officer Commanding in Chief but will not be an actual member of the board

3 The new trade tests are obligatory for all British ranks drawing tradesmen's rates of pay as prescribed in Army Instruction (India) No 323 of 1920 except the clerks referred to in categories 'B' and 'D' of Army Instruction (India) No 394 of 1920

The possession of a trade qualification is also important for the soldier in assisting him to obtain civil employment in the United Kingdom after leaving the service Men

drawing normal rates of pay should, therefore, be encouraged to obtain a trade qualification, though the fact that they have obtained such a qualification will not entitle them to draw tradesmen's rates if they are not borne on the establishment of tradesmen of their unit

The question of the possession of trade qualifications for the grant of tradesmen's rates of pay for Unattached List ranks when on furlough is receiving separate consideration and an Army Instruction (India) on the subject will be published in due course

4 Trade tests should be arranged with a view to reduce travelling to a minimum, and individuals should be tested locally wherever possible

If, in the case of certain trades it is found impracticable to carry out the prescribed tests within a command the General Officer Commanding in Chief will arrange for the test to be carried out in communication with another command which possesses the necessary facilities

As a guide to assist General Officers Commanding in Chief in such cases a list of army trades by groups, amended to date, showing the units or institutions where tests can be carried out is published as an Appendix to this Instruction

The civil departments concerned are being asked to give every assistance possible to General Officers Commanding in Chief but such assistance should only be applied for when it is impossible to carry out the test otherwise

5 (a) The command testing boards should be instituted by the 1st August 1922 and trade testing should be commenced as soon as possible, in those trades for which trade tests have been issued

(b) Where tests have already been carried out locally by units and formations under the new conditions the classification must be confirmed by the command testing boards who, if not satisfied as to the man's qualifications, will require him to be retested

(c) With reference to Army Council Instruction No 88 of 1922, where men have been provisionally classified under paragraph 4 (b) of Army Instruction (India) No 323 of 1920 they must qualify in the new tests by 1st February 1923

*Enclosure*CHAPTER XXXVIII—WOUND AND OTHER
EXTRAORDINARY PENSIONS

SECTION I—GENERAL RULES

728 The rules in this chapter apply to all persons, other than those specified in Article 729, employed in a civil capacity in the service of Government whether permanently temporarily or even casually and whether remunerated by fixed pay or by piece work rates

NOTE—In the case of men remunerated by piece work rates pay for the purposes of this Chapter, means the average earnings of the last six months of service immediately preceding death or the receipt of injury

729 The rules in this chapter do not apply to army followers or to civil subordinates belonging to the various departments of the Army—Supply and Transport Medical, Ordnance Veterinary Remount Military Accounts etc., if in receipt of less pay than Rs 200 a month The claims of men of these classes and of their families to wound and other extraordinary pensions or gratuities are dealt with under Army Regulations India

730 Government do not bind themselves to grant a pension or gratuity in every case or if they grant a pension to grant it for life

731 Every grant of pension under this chapter is subject to the provisions of Article 351

732 In cases where considerable delay has occurred in applying for an extraordinary pension the grant if any will take effect only from the date of the report by the medical board or in the case of a family pension from such date as the sanctioning authority may decide Otherwise the grant may be made with effect from the date of wound injury or death except that when it is made under Army Regulations it has effect from the date therein prescribed

733 In cases falling clearly and strictly within the letter of the rules in this chapter the local Government may exercise in relation to Government servants under its administrative control all powers conferred by the rules upon the Government of India other than the powers conferred by Articles 739 713 716D 746E and by the notes under Articles 740 and 746B

734 All awards involving expenditure chargeable to British revenues should be reported without delay to the Secretary of State

735 When a grant under these rules is made in India to an European officer, the authority sanctioning the grant shall inform the Secretary of State in order that a grant of a like nature may not be made by any authority in the United Kingdom in respect of the same casualty

736 When it is necessary to convert sterling pensions or gratuities awarded under the rules in this chapter into rupees, or rupee version shall be fixed for the conversio

737 Subject to the rules in Appendix 10 the recipient of a pension awarded under the provisions of this chapter may be allowed to commute a portion of it. An essential condition is that the authority granting commutation shall be satisfied that the commutation will be to the distinct and permanent benefit of the pensioner or his family

738 (a) If an officer is incapacitated for further civil service in consequence of a wound injury, or disability in respect of which an extraordinary gratuity or pension is awarded to him under the provisions of this chapter he will be eligible to receive in addition to such extraordinary gratuity or pension any ordinary civil pension or gratuity for which he may be eligible under the Civil Service Regulations

(b) In the event of his total qualifying service for civil pension rendering him eligible for invalid gratuity only, as distinguished from pension he may notwithstanding be granted at his option a pension calculated as follows in lieu of the gratuity —

(i) If he is a member of the Indian Civil Service at the rate of £30 a year for each completed year of active service including any period passed with a military force in the circumstances described in Article 739

(ii) In other cases, at the rate of one sixtieth of his average emoluments for each completed year of service for pension including any period passed with a military force in the circumstances described in Article 739

NOTE — For the purpose of calculating ordinary civil pension or gratuity in the case of an officer who has been serving in a military capacity with a military force (see Article 744), his "emoluments" during the period of such service shall be taken to be those which he would have drawn if he had remained in civil employ, the calculation being made according to the "next below" rule where applicable

SECTION II—WOUNDS INJURIES OR OTHER DISABILITIES SUSTAINED BY A CIVIL OFFICER WHILE SERVING WITH A MILITARY FORCE

739 The rules in this section apply to officers serving in circumstances justifying their presence with a military force if the connection of the officer with the force can reasonably be held to be due wholly or in part to the fact that he was at the time a civil officer of the Government of India or a local Government. This may be assumed without question in the case of any officer called out for actual service as a member of the Indian Army Reserve of Officers or of the Auxiliary Force India or the Indian Territorial Force or attached to an Indian unit or to a force under the orders of the Government of India or operating in a country contiguous to India. If in any other case doubt arises as to the applicability or otherwise of the rules in this section the decision will rest with the Government of India subject if they think it desirable to reference to the Secretary of State for India in Council.

630 Scale of clothing and necessaries for Indian troops and followers serving in Tibet

630

1st Aug
1922.

In supersession of all previous orders on the subject it has been decided that Indian troops and followers serving in stations in Tibet shall be governed by the following rules in regard to the scale and issue of clothing —

- (i) For purposes of clothing Indian troops and followers in Tibetan stations will be treated in the same way as those serving in India and will accordingly be clothed on the scales authorised for corresponding ranks in the various tables in Clothing Regulations India 1919 (Provisional) as corrected from time to time
- (ii) With effect from the 1st July 1922 or with effect from the first quarter day following the date of this Instruction whichever is later all Indian troops and followers serving in Tibet shall be brought under the clothing allowance system promulgated in Special India Army Order No 46 S of 1920 as confirmed in Army Instruction (India) No 827 of 1920. Detailed instructions regarding the procedure to be followed are contained in the memorandum published as an Appendix to Army Instruction (India) No 70 of 1922. The latest rates of quarterly clothing and kit allowances admissible are published as an Appendix to Army Instruction (India) No 291 of 1922

- (iii) On the date on which the men are brought on to the allowance system under the above orders, the officer commanding concerned is responsible that every man in his unit to whom the orders apply is in possession of serviceable articles of clothing and necessaries according to the scale authorised. It is not intended that part worn serviceable articles in possession of the men should be withdrawn and replaced by new articles, only such articles as would be declared unserviceable in accordance with the orders contained in Clothing Regulations before the date on which the men are brought under the allowance system shall be replaced at the expense of the State. Articles required to complete to scale will be issued free. For purposes of replacements and free issues referred to above, part worn articles in store should be utilized as far as possible.
- (iv) Those now serving in Tibet will begin to draw clothing and kit allowances at rates authorised with effect from the date on which they are brought under the allowance system, while those arriving in relief in future will be treated in the same way as soldiers and followers transferred from one station to another in India, i.e., they will continue to be in receipt of clothing allowances as if they are serving in any part of India.
- (v) In view of the rigorous climate in which the men have to serve it has been decided that the articles enumerated in the list published as an Appendix to this Instruction shall be issued to them before their departure from any station in India provided that these articles are not included in their ordinary scales of clothing and necessaries. Extra blankets up to the limit of three per man, may also be issued under conditions prescribed in Army Instruction (India) No 146 of 1922. Those now serving in Tibet will be issued with a similar scale, any articles in excess of this scale being withdrawn and returned to store. Existing equivalent garments in store (in Tibet as well as in Clothing Depôts) and also

those in possession of the men now serving in Tibet will be used up until exhausted, when garments which under these orders replace them will be brought into general use. Some instances of equivalent garments are given below —

Greatcoats flannel lined for poshteens,
Vests woollen, for lambs wool vests,
extra issue blankets for rezus, drawers,
woollen for overalls quilted and Gilgit
boots for Tibetan boots

- (vi) A reserve of special articles referred to above estimated on six months requirements, will be maintained at Gyantse and Yatung. Six months requirements of ordinary clothing and necessaries will be taken by all detachments proceeding to Tibet. On return from Tibet the special articles will be returned to the clothing depot on which the unit is dependent

634. Re introduction of the " cash payment " system of paying railway fares in the case of Indian officers and other ranks when proceeding to their homes on leave or furlough.

1st Aug.
1922.

The system introduced by India Army Order No 123 of 1916 and subsequently cancelled by India Army Order No 172 of 1917 will be re introduced with effect from the 1st August 1922

2 Under the new system, officers commanding units will submit a requisition in duplicate on India Army Form T 1720 for the tickets required to the station master concerned who will return both forms showing thereon the amount of fares to be paid

The officer commanding will return to the station master one copy of India Army Form T 1720 together with completed vouchers (India Army Form T-1720 A) for as many return tickets as may be required and will send, at the same time, the amount of money necessary to pay for the tickets required

The duplicate copy of India Army Form T 1720 will be retained by the officer commanding for record

The station master will furnish the officer commanding with single tickets for the outward journey and signed vouchers (India Army Form T 1720 A) for the return journey

3 When large parties of men proceed on leave or furlough from one station at the same time ample notice should be given to the station master to enable him to complete India Army Forms T 1720 and 1720 A and to issue the required tickets

4 For the return journey tickets will be issued by the booking clerk on presentation of India Army Form T 1720 A by the persons concerned. Officers commanding will ensure that all persons proceeding on leave or furlough understand this procedure and will notify to all concerned that a person who attempts to travel on a return journey voucher instead of exchanging it for a ticket will be liable to the same penalties as a member of the ordinary travelling public who attempts to travel without a ticket

If a person experiences any difficulty in obtaining his return ticket on presentation of the return journey voucher (India Army Form T 1720 A) he should report the matter to the station master without delay

5 In the case of men proceeding from Burma and Aden to India the staff officer at the port of disembarkation will act for the officer commanding unit and obtain the railway tickets and signed vouchers for the men's onward and return journeys. The particulars and the amount of money required for this purpose will be remitted by the officer commanding unit so as to reach the staff officer at the port of disembarkation in sufficient time to enable the latter to get the tickets and vouchers before the arrival of the men

6 Reservists returning to their homes on completion of training will travel on warrant (India Army Form T 1707). The word 'reservists' in the heading of India Army Form T 1720 will be expunged and clause (i) of the instructions on the reverse of India Army Form T 1720 will be deleted

Revised copies of India Army Form T 1720 and India Army Form T 1720 A will be available for issue shortly

7 India Army Order No 472 of 1917 is cancelled with effect from the 1st August 1922. From that date the following forms will become obsolete and will not be used for journey of any description—

- 643 643 Closing of accounts in depôts and training battalions of combatants, non-combatants and followers serving overseas.

643
1st Aug
1922.

The accounts sections of depôts and training battalions will be closed in respect of all personnel serving overseas and accounts will be maintained in running account pay bills by the Regimental Paymaster, Indian Troops (Overseas), with effect from the following dates —

(a) Cavalry and infantry depôts, and training battalions 1st July 1922

(b) All other depôts, for which field individual pay bills are compiled 1st October 1922

NOTE—Throughout this Instruction the term "depot" will include company headquarters of Indian Hospital Corps

Depots other than those of cavalry and infantry including training battalions

2 Pay bills forwarded by the Regimental Paymaster Poona for the quarter ending 30th June 1922 will show against each name whether the individual has been reported as serving overseas when the census was taken in Iraq on the 13th and 15th March 1922 and in Egypt and Palestine on the 1st May 1920

3 The officer commanding the depot will prepare and forward to the Regimental Paymaster Indian Troops (Overseas) Poona nominal rolls of men whose names appear in the June quarter pay bills under the following headings —

- (a) Men reported as serving overseas
- (b) Men not reported as serving overseas regarding whom the officer commanding the depot can give no information
- (c) Men not reported as serving overseas regarding whom the officer commanding the depot can furnish definite information as to the date of embarkation overseas for India or the date of disembarkation in India or the date of arrival at the depot or the date they were otherwise disposed of

4 Each nominal roll should contain in addition to numbers ranks and names two columns headed "Credit Balance" and "Debit Balance"

The right hand page of the June quarter pay bill should be brought up to date and the credit or debit balance of each individual entered against his name on the nominal roll

Each roll should be totalled and the total debit balances deducted from the total credit balances and a remittance transfer receipt sent to the Regimental Paymaster, Poona, for the net total of the three rolls at (a), (b) and (c) in paragraph 3 above

5 The remaining balance of cash held by the officer commanding the depot on account of overseas fund- should be reported to the Regimental Paymaster, Poona, by memorandum which should embody full particulars regarding the amount

The Regimental Paymaster, Poona will issue instructions as to the disposal of the balance

6 When a family allotment is being paid the Regimental Paymaster Poona will notify the officer commanding the month from which he will commence to debit individuals in the running account pay bills

7 The Regimental Paymaster Poona will deal with the nominal rolls as follows —

- (a) The rolls prepared under paragraph 3 (a) will form the basis of the running account pay bill and each man will be credited or debited with the amount shown against his name. This roll should be supported by a statement of accounts for each man showing (i) the amount received each pay period from the Regimental Paymaster Poona or the accounting officer from whom cash on account of balances was previously received (ii) debits that have been made against individual balances on account of family allotment or other causes
- (b) Amounts shown on the nominal roll prepared under paragraph 3 (c) will be adjusted by the Regimental Paymaster Poona in his public accounts
- (c) The accounts of men named on the roll prepared under paragraph 3 (b) will be adjusted by the Regimental Paymaster Poona and any balance due to the individuals notified to the officer commanding the depot for payment if the whereabouts of the individual are known or for recovery in the case of debit balances

Attention is however directed to paragraph 24 of Special India Army Order No 38 dated 28th June 1922 and Appendix A of that order which should be complied with without delay

8 The above procedure refers only to men serving or who have served in Iraq (including N W Persia) Egypt or Palestine

Similar procedure should be followed regarding men serving or who have served in the P I. Such Force pt that nominal rolls and remittance to be forwarded to the Field Controller r c f adl Poona instead of to the Regimental Paymaster Poona. utar rt

Current Accounts—

9 The running account pay bills prepared from 1st October 1922 will contain the names of men as shown on the nominal roll mentioned in paragraphs 3 (a) and 5 (a)

The balance shown on the rolls will be credited or debited to their accounts in addition to the balance on the pay bill for the quarter ending 30th September 1922

The pay bills will be in future maintained by the Regimental Paymaster Poona

Balances will *not* be paid to the officer commanding the depot at the end of each quarter as at present, but will be brought forward from one quarter's pay bill to the next so that the latest pay bill will show the up to date balance of each individual

A copy of each quarter's pay bill will be sent to the officer commanding the unit overseas when the men named in a particular pay bill are serving in one unit

In other cases a quarterly statement of accounts will be sent to the officer commanding under whom an individual is serving when called for

Family Allotment—

10 Officers commanding depôts will prepare family allotment rolls in accordance with India Army Order No 15 of 1919 attaching a payment order showing that the Regimental Paymaster Poona will reimburse the post office

The Regimental Paymaster, Poona will debit each individual in the current pay bill from October 1922 onwards

Indian cavalry and infantry units—

11 Running account pay bills instead of field individual account pay bills will be maintained by the Regimental Paymaster Poona from infantry units serving in Iraq Egypt and Palestine

The officer commanding the training battalion or depot will at once prepare a nominal roll of men serving overseas with two money columns one for credit balances and one for debit balances. Against each man's name will be shewn the amount due to or from him according to the balance shown on the right hand page of the last pay bill rendered by the Regimental Paymaster Poona and completed by the officer commanding. Where family allotment is being issued it should be debited by the officer commanding to and for 30th June 1922. The total credit

balance will be ascertained and will be forwarded by remittance transfer receipt together with the nominal roll to the Regimental Paymaster Poona who will credit or debit each man with the amount of this balance and thus bring the new running account pay bill up to date as regards each man's account from the date he proceeded overseas to the current period. Thereafter all pay bills will be compiled by the Regimental Paymaster Indian Troops (Overseas) Poona. No further balance will be paid to the officer commanding the depot or training battalion at the end of each quarter as at present but they will be brought forward from one quarter's pay bill to the next so that the latest pay bill will invariably show the up to date credit or debit balance of each individual.

A copy of each quarter's pay bill will invariably show the up to date credit or debit balance of each individual.

A copy of each quarter's pay bill will be sent to the officer commanding unit overseas.

Family allotment—

12 Paragraph 8 of the Instruction will also apply to Indian cavalry and infantry units.

Details of Indian cavalry, infantry or other corps including followers returning from overseas—

13 Immediately on arrival with the training battalion or at the depot the Army Book 64 will be withdrawn the arrival will be published in Part II orders and a copy of the Part II order together with the Army Book 64 and a notification as to the month of last family allotment issued will be sent without delay to the Regimental Paymaster Poona.

A last pay certificate will be prepared by the Regimental Paymaster Poona showing

- (a) pay credited to and for date prior to that of embarkation overseas
- (b) Family allotment recovered as notified by the officer commanding training battalion
- (c) Advances taken in the field debited in accordance with Army Book 64
- (d) Balance due to or from the soldier

Credit balances will be remitted to the officer commanding the depot or equivalent unit by remittance transfer receipt.

Do but balances will be recovered from any pay due to the individual from date of embarkation overseas to date of discharge and refunded to the Regimental Paymaster Poona (See India Army Order S 51 of 1921 and the following paragraph)

Pay due from date of embarkation overseas to date of discharge in the case of men due for demobilization or to date of arrival at the depot in the case of those continuing to serve should be compiled in a contingent pay bill by the officer commanding the training battalion and submitted to the Controller of Military Accounts for payment the man in credit on return from overseas being paid the credit balance remitted by the Regimental Paymaster Poona plus the amount shown in the contingent pay bill

If the man was in debt on transfer by the Regimental Paymaster Poona the amount of his debt should be recovered from the amount claimed in the contingent pay bill

14 A further instruction will shortly be issued concerning the formation of a general overseas depot at Kirkee

693. Disposal of British officers declared to be surplus to the requirements of the Indian Army.

15th Aug
 1922

With reference to rule 1 of the rules published as appendix I to Army Instruction (India) No 500 of 1922 it is notified that, the Secretary of State has sanctioned the following provisions in India after their retirement under the terms of the Royal Warrant dated 25th April 1922 —

- (a) free conveyance for himself and family by road, river rail or sea to selected place of residence in India or Burma,
- (b) if the family is not in India or Burma, free passage for the family to India or Burma from the port nearest to the place of residence in India or Burma provided the cost of such passage does not exceed that from any port in the British Empire to India or Burma

This latter concession must be claimed within 12 months from the date on which the officer is retired

2 An officer who elects to remain in India is not entitled to send his family overseas at public expense

3 It has also been decided with the approval of the Right Honble the Secretary of State for India that an officer and his family may retain when on the free passages admissible under rule 1 of the rules referred to above, for a period not exceeding 12 months from the date on which the officer is retired but that gratuity earning service will cease on the date on which the officer is struck off duty in all cases

4 With reference to rule 1 (f) of the rules referred to above, the right to free conveyance to the port of embarkation includes in India and Burma free conveyance by road and river, when necessary, for an officer and his family, and also for the authorized number of servants. This applies to all surplus officers proceeding overseas

5 With reference to the second clause of rule 2 (a) of the rules referred to above the intention is that an officer is entitled to either—

(i) such full pay leave as may be admissible to him under regulations his pay during such leave being governed by the rule in paragraph 336 Army Regulations India Volume I, or

(ii) two months leave on the full pay of his substantive rank and substantive appointment whichever may be more advantageous to him

694 Procedure for receiving ration articles direct from contractors

694

15th Aug
1922

The following instructions regarding the method by which ration articles are received direct from contractors are notified for the guidance of all concerned —

- (i) The names of local contractors together with lists of those commodities which they are under contract to supply and which commanding officers are authorized to draw direct from them and the addresses of the local agents of such contractors will be notified by Assistant Directors Supply and Transport through Brigade Supply Officers to the commanding officers of all units concerned
- (ii) The officer commanding the unit will issue supply orders (India Army Form Z 2135) to each contractor for such quantities as may be required from time to time deliverable at such times as may be convenient to the unit. The place of delivery is normally specified in the contract and cannot in such event be altered. Although delivered direct by contractors the Supply and Transport Corps is responsible for the quality of the supplies. Such supplies should therefore as far as possible be made in the presence of a representative of that Corps.

Supply orders will be made out in triplicate, the original being sent to the contractor for compliance. On receipt of the supplies ordered and their acceptance, all three copies of the supply order will be completed by the officer commanding as regards quantity received, for this purpose the original will be withdrawn from the contractor. On completion, the original and duplicate supply orders will be passed to the unit accountant, *vide* (iii) below, the triplicate being retained by the officer commanding as an office record.

Supply orders will invariably be signed by the officer commanding or an officer on his behalf.

- (iii) The unit accountant will return the original supply order, duly encased with a certificate of the priced account in which the supplies have been credited, to the officer commanding, who will hand it over to the contractor for attachment in support of his bill to the Controller of Military Accounts.

The unit accountant should retain the duplicate supply order, encased in the same manner as the original, and attach it to his appropriate priced account before submission of the latter to his Controller of Military Accounts.

The Controller of Military Accounts should pay the contractor's bill on the strength of the original supply order attached thereto and subsequently connect this with the duplicate supply order received with the priced account and with the entries in the latter.

- (iv) When it is possible to foresee requirements with approximate accuracy, there is no objection, in order to reduce the multiplicity of supply orders, to the issue of a supply order to any one contractor covering more than one delivery of supplies e.g., if it is known that 500 lbs firewood will be required daily for a week the order should be so worded. In that event, the actual quantity received from time to time should be entered on the back of the order and initialled by a responsible officer. On the conclusion of the period covered by the order, the certificate regarding the total quantity received and the return in

which credited should be completed and the original and duplicate disposed of as in the case of an order for a single delivery

The use of India Army Form S 1520 in this connection will be discontinued

If a supply order is issued in advance to cover drawings over a given period the quantity entered on the supply order in the original instance must be drawn in full within the period stated unless by mutual arrangement between the contractor and officer commanding the receiving unit which must be confirmed in writing the quantity has been subsequently reduced

4 It is to be clearly understood that only in cases in which the disability is certified by the regulated medical authority to have been caused by ordinary military service, or directly attributable to field service (including service

712 Substantive promotion of British officers of the Indian Army

712

22nd Aug
1921

Army Instruction (India) No 124 of 1922 is hereby cancelled and the following substituted —

As the precise effect of the introduction of the sliding scale of promotion authorised by Army Instruction (India) No 870 of 1919 does not appear to be thoroughly understood the following is published in amplification thereof as since the issue of Army Instruction (India) No 693 of 1921 dates can be definitely laid down

Second Lieutenants whose commissions count for purposes of promotion from or before 31st August 1920 are eligible for promotion after one year from date of commission. Officers commissioned on or after 1st September 1920 must serve for 2½ years before becoming eligible for promotion to Lieutenant.

Lieutenants whose commissions for purposes of promotion date from or before 31st August 1917 are eligible for promotion to the rank of captain after four years service. Those commissioned between 1st September 1917 and 31st August 1918 (both dates inclusive) are eligible after five years service those commissioned between 1st September 1918 and 31st August 1919 (both dates inclusive) are eligible after six years service those commissioned between 1st September 1919 and 31st August 1920 (both dates inclusive) after seven years those commissioned between 1st September 1920 and 31st August 1921 (both dates inclusive) after eight years and officers commissioned after 31st August 1921 must serve the normal period of nine years before becoming eligible for promotion.

Captains whose commissions for purposes of promotion date from or before 31st August 1908 are eligible for promotion to the rank of Major after fifteen years service those commissioned between 1st September 1908 and 31st August 1910 (both dates inclusive) are eligible after sixteen years, those commissioned between 1st September 1910

and 31st August 1912 (both dates inclusive) after seventeen years, and those commissioned after 31st August 1912 will not become eligible until they complete the normal period of eighteen years' service

The normal time scale period of twenty-six years' service required in order to qualify for promotion to Lieutenant-Colonel is not affected and has not been affected at any time

2 Nothing in this Instruction affects the right of officers who forfeited nine months' commissioned service on being selected for permanent commissions to the concession granted to them in paragraph 4 of Army Instruction (India) No 870 of 1919 that is to say they may be promoted *pari passu* with the officer next above them in the general gradation list of the Indian Army List, who was granted his commission after passing through a Cadet College or who was a university candidate

3 Officers are permitted to count as "service" under these rules only such service as is allowed to reckon for promotion

4 A reference is invited to India Army Order No 1275 of 1921 which lays down that although officers may be considered for promotion on their records up to the 31st December 1922 no officers of the Indian Army should be recommended for promotion without having passed the necessary examination except in very special circumstances

5 On appointment disabled officers will provided they are reported from time to time as being fit to perform the duties of their appointment to the satisfaction of their commanding officers, be treated as special cases and the proviso laid down in paragraph 318 B Army Regulations India Volume II, being waived they will be eligible for promotion, emoluments and pensions as for other officers of the Indian Army

748 748 Presentation of war medals and decorations to discharged and demobilised Indian officers, soldiers and followers by civil officials

29th Aug
1922

In supersession of the orders contained in Army Instructions (India) Nos 760 of 1920 256 of 1921 and 59 and 281 of 1922 it has been decided that in cases where it has not been possible to present war medals and decorations to discharged and demobilised Indian officers, soldiers and followers at the periodical presentation parades held by General Officers Commanding in Chief Commands or General Officers Commanding Districts the medals and decorations will be presented to recipients by the civil officer of the district in which they reside

2 Officers commanding units and depôts will prepare rolls in the form reproduced as an appendix to this Instruction containing full particulars and addresses of discharged and demobilised Indian officers, soldiers, and followers who are to be presented with medals and decorations by civil officers. In cases of deceased officers or soldiers the name and address of the next of kin of the deceased should be included in the roll. These rolls together with the medals and decorations for the persons named therein will be forwarded to the civil officer concerned with a request that he will arrange for the presentation during durbars or while on tour

3 The following travelling and subsistence allowances will be admissible for discharged and demobilised Indian officers soldiers and followers and next of kin of deceased Indian officers soldiers and followers who are summoned by civil officers to attend a durbar or presentation parade and who do not reside at the station where the presentation is to take place —

Travelling allowance—

| | |
|---------------------------------|---|
| Indian officers . . . | One second class fare by rail
Two annas per mile by road |
| Other ranks including followers | One third class fare by rail
Two annas per mile by road |

Subsistence allowance—

| | Per diem |
|---------------------------------|--------------|
| | Rs A P |
| Indian officers . . . | 1 0 0 |
| Other ranks including followers | 0 8 0 |

The subsistence allowance will not be granted for any period in excess of five days

The grant of the above travelling and subsistence allowances will be admissible to the next of kin of deceased Indian officers soldiers and followers attending durbars held by civil officers after 21st January 1922 for the presentation of medals. This concession will be limited to one relative in each case

The rate of travelling and subsistence allowance to be granted to the next of kin will be governed by the rank of the deceased officer soldier or follower to whom the medal or decoration was awarded

4 Travelling allowance and subsistence allowance due to an officer or soldier will be disbursed by the civil officer after the presentation of the medals and decorations has taken place and the amount expended will be recovered by him from the Controller of Military Accounts of the District concerned. If however it is considered more convenient, the allowances may be drawn by the civil officers from the treasury on travelling allowance bills countersigned by the Commissioner of the Division, in which case, the Accountant General of the Province will adjust the charges with the Controller of Military Accounts concerned in the usual way

5 In cases in which a person is entitled to receive both the British War and the Allied Victory Medal, officers commanding units and depôts will not forward these decorations to the civil officer until both are available, when they will be sent together, thus will obviate recipients having to attend more than one durbar or parade. If, however, there is likely to be considerable delay before both medals are available for despatch to the civil officer, officers commanding units and depôts may arrange for the issue of the medals or decorations available instead of retaining them in regimental custody for an indefinite period, but where a person has already received one medal at a durbar of a civil officer any other medal to which he may be entitled should be sent to him by post, by the officer commanding the unit to which the recipient belonged.

6 Officers commanding units and depôts, when forwarding medals and decorations to civil officers for presentation to discharged and demobilised Indian officers, soldiers and followers, should at the same time, intimate by registered post to the individual awardees —

- (i) the fact that the medal or decoration has been so despatched and
- (ii) the designation and address of the civil officer to whom application should be made for the medal or decoration

7 Rolls are not required on behalf of recipients residing in Indian States as the medals and decorations will in these cases be forwarded by the officer commanding unit direct to the recipient by post.

Any schoolmistress, however, whose actual rate of pay and allowances (including war bonus in the case of schoolmistresses who had not by 31st March, 1921, been elected Army Order No 136 of 1920 rates) actually exceeded the rate issuable to her as a certificated schoolmistress as assessed above, will enter the scale at the

incremental point which secures her a minimum increase on the pay, etc., of which she was in receipt on 31st March 1921

For the purpose of re assessment of pay an army schoolmistress who had completed 10 years' service as such on 31st March, 1921, but had not completed 11 years shall enter the new certificated scale at the minimum point thereon, a schoolmistress with 11 years' completed service but less than 12 years at the next higher point, *viz.*, 155l a year (if in quarters) or 192l 10s (where quarters are not allotted), and so on, a further increment being added for each further completed years' service. Thus a schoolmistress with 21 or more years' completed service will enter at the maximum point of the scale

The increases to the existing emoluments of army schoolmistresses on 1st April 1921, admissible under this and following paragraphs, will not, however, be paid in full on 1st April, 1921, but will be paid as follows —

One third on 1st April, 1921, or such later date as the schoolmistress enters on the new scale, and one third, in addition to the normal annual increments, on each of the dates 1st April, 1922, and 1st April 1923 (or on the first and second anniversaries of the date on which the schoolmistress enters on the new scale). For example, a schoolmistress with 10 years' service on 1st April 1921, who is now in receipt of 130l 10s per annum, under Army Order No 136 of 1920, will be brought on the new scale at the minimum of 142l 10s, but the difference between her present rate and the new rate will be paid to her in three instalments as follows —

From 1st April 1921 she will draw 130l 10s plus
1l = 131l 10s

From 1st April, 1922 she will draw 131l 10s plus
4l plus one increment of 12l 10s = 151l

From 1st April, 1923 she will draw 151l plus 4l
plus 12l 10s = 167l 10s a year

3 Additional pay, under paragraph 2 of the Schedule to Army Order No 136 of 1920, will not be taken into account in assessing the point of entry of a schoolmistress into the certificated scale under the conditions of the preceding paragraph

4 In the case of schoolmistresses serving abroad or/and appointed schoolmistresses under paragraph 1 (d) of the Schedule to this Warrant pay under paragraph 1 (c) or/and additional pay under paragraph 1 (d) respectively of the Schedule attached to this Warrant will be added to his pay as assessed under paragraph 2 of these Instructions

5 All army schoolmistresses who were actually serving as such on 1st April 1920 but had not completed 10 years service as such on 31st March 1921 will as and when they complete this period of service satisfactorily be allowed to enter the scale for certificated army schoolmistresses at the minimum

6 An army schoolmistress or a candidate for appointment as army schoolmistress who is in possession of a Board of Education certificate will enter the scale at the point which will secure for her an increment for each year of certificated service either in army schools or in civilian schools provided that an army schoolmistress who obtains increments under paragraph 2 of the Army Council's Instructions on this Warrant shall not obtain increments under this paragraph

7 Any army schoolmistresses placed on the unemployed list who returned to duty subsequent to 31st March 1921, or may so return in future will come under the conditions of this Warrant and will not be permitted to revert to the emoluments of which they were in receipt prior to being placed on the unemployed list

8 If any army schoolmistress elects to serve under this Warrant she must accept the conditions as a whole. She cannot serve partly under the conditions hitherto in force and partly under this Warrant

9 The pay of all schoolmistresses and their assistants will be issued direct by the command paymaster. Any schoolmistresses who wish to remain on the rates of pay hitherto drawn should notify the command paymaster without delay and in the absence of such notification it will be assumed that the new rates and conditions are accepted and adjustment of pay and allowances will be made accordingly. The Army Council's Instructions regarding the issue and charge of pensions are contained in the Financial Instructions. The pensions of schoolmistresses who have been awarded pensions since 4th August 1914 will be reassessed by the War Office without application on their part

767. Revised rules regarding the issue of chargers to officers

In supersession of the orders issued in Army Instruction (India) No. 393 of 1921 the following rules regarding the issue of chargers to officers are notified for the information and guidance of all concerned

Officers should provide themselves with chargers at their own expense in accordance with the rules laid down in Appendix I to this Instruction. The provision which such provision was to be made was notified in reference to Army Instruction (India) No. 393 of 1st January 1922 and that date holds good

2 To assist officers in question in providing themselves with chargers they will be allowed to purchase horses from the Government at the concession rates laid down in Appendix I

II to be paid in 12 15 or 18 monthly instalments as the case may be (or earlier at the officer's convenience)

3 All hiring of chargers will cease except for officers who act temporarily in a mounted appointment and who are not otherwise provided with chargers. Such officers may hire chargers according to the scale laid down in Appendix I for Rs 12 8 0 a month for each horse and are entitled to draw syce allowance and forage for each horse. A horse so hired may be used for general purposes as laid down in Army Regulations India Volume II paragraph 754 A

Subject to the exception mentioned in the first part of this paragraph chargers now on hire must either be returned to the nearest remount depot or be purchased at concession rates by the hirer if eligible under Appendix I

4 Officers who have purchased horses from Government under existing rules since the 1st April 1921 will be required to complete their payments up to the concession rates only

Officers who purchased horses before the 1st April 1921 but have not completed payment will pay up to concession rates but no refund will be allowed in cases in which payments made up to the 1st April 1921 are in excess of concession rates now introduced

5 The concessions contained in this Instruction are granted on the condition that officers shall maintain chargers fit for war as well as for peace purposes

Separate instructions have been issued for the boarding out of cavalry horses in the same manner as is done in England. These boarded out horses are required to rejoin their units on mobilization and they cannot therefore be held by officers in lieu of chargers

6 On mobilization private horses can be taken into the field only at their owners risk

Officers horses will therefore be taken over by the State on mobilization in accordance with the following rules —

- (a) Horses purchased at concession rates will become the property of Government on the refund to the officers concerned of the full concession rates paid by them reduced if over six years of age by 10 per cent of that concession rate for each complete year that the horse has been in the officer's possession. The purchase

by an officer of a horse at concession rates involves the above mentioned liability at all times

(b) Officers chargers purchased by them in any other way will be taken over by the State, if certified fit for service by a board. All such chargers will be valued at the first opportunity after purchase by the Inspector of Remounts of the Command concerned who will enter the price on the regimental charger register. This price will be the reasonable market value of the horse as a charger in the field on lines decided from time to time by the Director of Remounts. On mobilization a depreciation of 10 per cent will be deducted from the original valuation for each complete year the horse has been in the officer's possession from the date of the original valuation and the amount arrived at will be the price at which it will be taken over by Government.

(c) Officers who refuse to accept the remount valuation may take their horses into the field at their own risk but will not be entitled to compensation for the loss of such private horses and must clearly understand that no guarantee can be given that such horses will be rescued to them once they have been evacuated sick or wounded or have left the field force for other reasons.

7 The following rules apply to the supply of chargers —

(a) Officers requiring horses for purchase or for hire as laid down in paragraph 3 will apply to the Inspector of Remounts of their Command through their commanding officers except in the case of officers of mounted units who wish to purchase horses from the ranks of their own units. Applications will in this case be made direct to the officer commanding the unit.

(b) On removal of a selected charger from the source of supply whether a remount depot or a unit the selecting officer takes all risks and becomes liable for its value at the concession

rate Officers are recommended to protect themselves against loss by insuring their chargers as Government is in no way responsible once the horse has been removed from the depot or unit except in cases of an exceptional nature as provided for in Army Regulations India Volume I paragraph 328

- (c) If an officer be promoted before payment for the horse has been completed he will only complete payment up to the scale laid down for the rank he held when the horse was originally selected

8 The following rules apply to the provision of sycce allowance and forage —

- (a) All officers who own chargers on the scale shown in Appendix I are entitled to draw for each authorized charger from the 1st April 1921 sycce allowance at the rate of Rs 15 a month and forage provided the horses are passed fit as officers chargers by the Commanding Officer. Forage will be drawn in kind by all officers belonging or attached to units and by all officers for whom arrangements can be made to draw through units. Officers who cannot draw their forage through a unit may draw compensation in lieu of forage the rate being that for the standard ration at the average monthly rate for the District or Independent Brigade concerned as calculated by the Controller of Military Accounts. Recovery will be made on contingent bills

A mounted officer proceeding on leave whose duty is performed during his absence by another officer who is already entitled to be mounted will continue to draw sycce allowance and forage for his horse or horses

A mounted officer proceeding on leave and whose duty is performed during his absence by another officer who is not already entitled to be mounted can —

Either lend his horse or horses to the officer who performs his duty during his absence in which case the latter officer will be entitled to draw sycce allowance and forage for them, or,

If he does not wish to lend his horse or horses to the officer performing his duty, the latter officer can hire chargers under the terms of paragraph 3 of this Instruction, and can draw syce allowance and forage for each charger taken on hire. In this case syce allowance and forage will not be admissible for the officer who proceeds on leave. Cases may arise where an officer going on leave is willing to lend his horse or horses to the officer performing his duty but the latter does not wish to accept them. In this case the latter will not be supplied with other horses nor can he draw syce allowance and forage, as this will be drawn for the period of leave for the horse, or horses of the absentee provided the horses are actually maintained by the latter.

The above rules are framed in order to ensure that syce allowance and forage are drawn only for the number of chargers authorized for units.

- (b) Officers whose horse allowance is now included in their pay, will draw the new allowances in addition. Horse allowances, which were issued as a separate item, will be discontinued from the 1st April 1921, and the new arrangements substituted.
- (c) Officers, other than regimental officers serving with units, who are entitled to be mounted, but whose duties are better performed by car or motor cycle may, under the orders of the General Officer Commanding the District as published in District Orders, draw the forage and syce allowance as authorised by these orders for the full upkeep of one charger, or such less portion as the General Officer Commanding may decide, and devote the same towards the maintenance of the car or motor cycle used in the performance of their duty, provided that no special motor car or motor cycle allowance shall be drawn in addition. In cases where a motor car or motor cycle is provided by Government, syce and forage allowance in lieu is inadmissible.

- (d) When an officer's charger, which is entitled to free forage, is admitted into a veterinary hospital, the officer will make his own arrangements for providing forage for it. The syce will accompany the horse and syce allowance will continue to be drawn by the officer.

9 The following rules apply to the disposal of selected chargers:—

- (a) A charger purchased at concession rates becomes an officer's property when fully paid for, but may not be sold except to the Remount Department for five years from the date of original selection, unless the Remount Department refuse to purchase it owing to its being unfit for service, in which case the officer may dispose of it under private arrangements. After that date it becomes an officer's property absolutely. Before the period of five years from the date of original selection has elapsed, a charger may be resold to the Remount Department under the conditions laid down in paragraph 6, but officers will not be allowed another charger at concession rates for five years from the date of original selection unless the charger previously obtained has died, become unfit for the service or was resold to Government and the cause of resale was transfer *ex India*, or some adequate reason, of which the Director of Remounts shall be the judge. Leave *ex India* will not be considered an adequate reason. Except on mobilization the Remount Department will not re-purchase chargers over 12 years of age. The owner of a charger over 12 years of age is at liberty to sell it privately, even if it has not been in his possession for 5 years as laid down above.

- (b) Should the officer die before he has paid for the horse in full, the horse will be returned to the Remount Department, and his estate will be credited with the value of the horse at the time, as assessed by the Remount Department. If unfit for the service, it will be sold under the orders of the officer commanding.

and the proceeds credited to the officer's estate minus any balance due to Government for the purchase of the horse

- (c) All chargers resold to Government under the above rules must be passed fit for service by a station board

10 Officers will be provided by the State with line gear for the horses to which they are entitled under Appendix I and with one set of saddlery per mounted officer. The line gear will accompany the horse when it is transferred but the saddlery will be borne on the charge of the unit and will not be transferred with the officer.

11 In the case of officers who have drawn syce and forage allowance under Army Instruction (India) No 393 of 1921 but who are not now included in this Instruction recovery of the amounts so overdrawn may be waived.

12 This Instruction takes effect from 1st April 1921

769 Institution of the peace system of pay accounting in Waziristan

12th Sept
1922

With effect from the 1st September the peace system of pay accounting will be instituted in Waziristan. This system will be instituted gradually unit by unit under the supervision of the Field Controller of Military Accounts. Although the process will be gradual one it will be carried out as expeditiously as may be compatible with the complete and final closing of each depot's field accounts.

The procedure will be as follows —

(A) *Administrative services*

The Field Controller of Military Accounts Waziristan Force will send a representative to each depot in turn which has up to date maintained field accounts and he will arrive at the balance credit or debit as shown in the depot accounts of each man who is in his payment. The unit commander or his representative will be present and these three, the unit commander, the depot commander and the Field Controller of Military Accounts will come to an agreement as to the correct balance credit or debit of each man serving in the unit who is in the payment of the Field Controller Waziristan Force. The balance credits thus arrived at will be found from the depot accounts will be paid into the depot treasury on a receivable order in favour of the Field Controller of Military Accounts Waziristan Force and this will form or affect the opening balance of the men's accounts on the 1st of the current month and will appear as such in the monthly pay bill for that month. Thenceforward payments will be made in Waziristan by the unit commander in accordance with the ordinary peace conditions and pay books will consequently cease to be used.

After the above procedure has been completed in respect of a depot personnel of the dependent units will be mobilized as required by the unit commander and not by the depot commander. The depot commander will report to Army Headquarters when his accounts have been thus cleared with the Field Controller of Military Accounts and the report will issue through the latter officer who will enclose a clearance certificate thereon.

(B) *Regimental*

Artillery and signal service — All artillery and signal units will adopt a procedure similar to that prescribed for the administrative services.

Cavalry infantry and sappers and miners —

(i) Present arrangements including the issue of family allotments will be continued temporarily. Further orders will be issued later.

(ii) Although troops in Waziristan as stated above will be on the peace system of payment the men will not be forced to take the whole of their credits monthly but may leave a balance credit in their pay bill to be carried forward from month to month. Family allotments will with the exception mentioned above cease to be paid from depots and royal artillery and signal training centres and the men will make their own arrangements through the field post offices. The money order commission to cover the cost of forwarding these family allotments will be met by means of a monthly contingent bill from each unit within the concession area.

(iii) The Field Controller of Military Accounts Waziristan will make arrangements as to the order in which the depots and training centres will be taken. The Amhala Deesa and Indian Hospital Corps depots will be among the first to be dealt with.

(iv) Unit commanders in Waziristan will after their units have come on to the peace system draw their cash requirements from the Field Cashier and will quote on the receipt given to the Field Cashier the month's pay bill in which the amount will be brought to account.

Revision of rules regarding leave, in and out of India, for officers of the British and Indian service.

793

19th Sept.
1922.

At the approval of the Right Hon. the Secretary of State for India it has been decided that the following rules regarding leave shall be introduced with effect from the date of this instruction:

1. Leave will in future be divided into three categories, exclusive of the temporary concession of "after war" leave, viz:—

- (i) casual or station leave,
- (ii) privilege leave, which may be taken either by itself or in conjunction with furlough up to the maximum of leave admissible,
- (iii) furlough which may be granted either on private affairs or on medical certificate.

2. Furlough out of India may be granted up to a limit of one year in the first instance, and this limit may subsequently be extended up to a maximum of two years' absence from duty.

3. Furlough in India will, in future, be limited to six months exclusive of privilege leave, in the case of all officers. In no case, however, will combined leave in India exceed eight months. Paragraph 358 of Army Regulations, Indian Volume I, in so far as it relates to leave in India is cancelled.

4. The right to accumulate privilege leave is abolished. The present concession of 90 days' privilege leave in the year to officers serving in certain frontier stations will remain in force but in all other cases privilege leave will be

limited to 60 days in the year as laid down in paragraph 220 of Army Regulations India Volume II

6 Officers who on the date of this Instruction have more than 60 days privilege leave at their credit will be permitted to avail themselves of that leave

7 Officers holding commands other than regimental and those holding staff or administrative appointments of limited tenure, may avail themselves of such privilege leave as is due to them, and they may, once during their tenure avail themselves of eight months' furlough or combined leave, either on private affairs or on medical certificate. Continuous absence from duty for a period in excess of eight months will involve vacation of the appointment from which the leave was granted

8 The above instructions do not refer to officers on the unemployed list who can only be given leave under the terms of Army Instruction (India) No 589 of 1920

9 The regulations will be amended in due course

ARMY INSTRUCTIONS (INDIA).

Simla the 10th October 1922

835 Retrospective grant of tradesmen's rates of pay to
soldiers reclassified on issue of standard trade tests

835
10th Oct
1922

Under the terms of paragraph 4 (b) (iii) of Army Instruction (India) No 323 of 1920 a soldier who on issue of the standard test for his trade, qualifies for a class higher than that in which he was temporarily classified under that paragraph is eligible for the higher rate of pay with retrospective effect as from 1st July 1919. This retrospective grading was provided for on the assumption that it would be possible for all standard tests to be issued at an early date, and that consequently, the standard of trade proficiency shown by individual soldiers on testing would be materially the same as on 1st July 1919.

2 In view of the unavoidable delay which has occurred since the publication of Army Instruction (India) No 323 of 1920 in the issue of tests for certain trades and, in consequence the advancement of trade proficiency in the case of many soldiers beyond the standard reached by them on 1st July 1919, the following amendment will be made to the last line of Note to paragraph 4, (b) (iii) of the above instruction —

After "held" add "provided that the Command Testing Board or other testing authority is satisfied that the soldier being reclassified has not had definite opportunities provided for him which have increased his trade skill in the meantime, such as undergoing classes of instruction, or regular employment at his trade etc. In such a case the increase of pay will date only from the end of such class of instruction or other opportunity, and in their recommendation for increased pay

It has been decided that a railway administration is responsible for giving a receipt specifying the number of articles parcels or packages, as the case may be, delivered to it for carriage and loaded into wagons on its premises. The fact that such articles parcels or packages may be carried at owner's risk and despatched by the railway administration in complete wagon loads does not absolve the railway administration from the responsibility of giving a receipt to the consignor. Such receipts should be demanded by consignors at the time the goods are tendered for despatch.

APPENDIX TO ARMY INSTRUCTION (INDIA)
No. 863 of 1922

Army Department letter No. 16877-1 (M. W. 5), dated the 17th October 1916.

I am directed to state that the Government of India have had under consideration the question of the incidence of the cost of electric energy obtained from private Companies or Corporations for consumption in military buildings, and have decided as follows

2 In each case in which electric energy is supplied by a private Company or Corporation, the duty of watching the consumption, keeping in touch with the Company, etc., should be definitely assigned to some responsible officer who should be required to pass the bills supplied by the Company or Corporation. The classification of the charge will then follow the administrative arrangements. Thus if the officer responsible be an Assistant Commanding Royal Engineer, the charge should be adjusted by the Examiner of Accounts, Military Works, and debited to the head "47—Military Works". If he be a regimental Supply and Transport, Ordnance or other army departmental officer, the claim should be paid by the Divisional Disbursing Officer or the Controller of Military Supply Accounts as the case may be, and charged to the head "16—Army" under Grant 3—Regimental Pay and Allowances, Grant 4—Supply and Transport Grant 10—Ordnance, etc

912 Rates of temporary invalid pensions for officers of the Indian Army and Indian Medical Service who are placed on the temporary non effective list

It has been decided by the Right Hon^{ble} the Secretary of State for India that officers of the Indian Army on the temporary non effective list or who may hereafter be placed on that list shall be entitled to temporary invalid pension at a rate equal to the half pay of the corresponding rank in the British Service as laid down in Army Order No 321 dated the 13th September 1919 (Table XV) and that those who were on the temporary non effective list on 1st July 1919 shall have their invalid pensions adjusted accordingly from that date

2 Officers of the Indian Medical Service placed on the temporary non effective list shall likewise be granted the rates of half pay laid down for the British Service in Table XV of the above quoted Army Order and those who were on the temporary non effective list on 1st July 1919 shall have their invalid pensions adjusted with effect from that date

3 Officers of the Indian Army or Indian Medical Service who are on the temporary non effective list and who after two years or more on that list apply for transfer to the permanent retired list or who are at any time reported by the duly authorised Medical Board to be permanently unfit for further service shall be dealt with under Army Instruction (India) No 191 of 1921 provided that they have rendered satisfactory paid military service during the Great War. The grant to these officers of additional disability pensions will be contingent on their being certified as permanently unfit for general service in accordance with the last sentence of Article 1 (a) of the Royal Warrant of 2nd July 1920

4 It should be clearly understood that officers can only be placed on the temporary non effective list when the Medical Board reports that there is a reasonable probability of their becoming fit for military duty. An officer who is reported permanently unfit cannot claim to be placed on the temporary non effective list in order to increase his service for pension. Such officers should at once be placed on the retired list on the invalid pension admissible under Army Instruction (India) No 191 of 1921, if they

are qualified thereunder, or under Army Instruction (India) No 303 of 1918 (pending revision of the rates therein laid down) if they have not rendered satisfactory paid military service during the Great War.

525. Grant of Commissions in the Indian Army Reserve of Officers to certain Chaplains who served in the field during the Great War.

14th Nov.
1922.

It is notified that Chaplains of the Indian Ecclesiastical Establishment and other clergymen who, during the Great War, were appointed by the Government of India to serve as Chaplains in the field and who had not, at any time during field service, held temporary commissions in the Royal Army Chaplains' Department, will be gazetted to commissions in the Indian Army Reserve of Officers with retrospective effect from the date on which they entered on field service and as relinquishing those commissions with effect from the date on which such service terminated

2 Subject to the rank to which they are gazetted being that of the highest rank actually held and to its having been held for an aggregate period of not less than six months in the field Chaplains of the Indian Ecclesiastical Establishment will, with reference to paragraph 390 A, Army Regulations, India Volume II, be accorded the rank of major or of captain according as they were either Senior or Junior Chaplains on that establishment while on service, and Chaplains not belonging to the Indian Ecclesiastical Establishment will be accorded the rank of captain

3 Chaplains granted commissions under the terms of this Instruction will not become entitled thereby to pay or allowances at higher rates than those at which they were paid while serving in the field or to gratuity, army of occupation bonus or children's allowance at rates higher than those at which these concessions are admissible to them under orders already issued. They will however be permitted on being gazetted as relinquishing their commissions, to retain their rank and to wear the service dress uniform of such rank, if they desire to do so when attending ceremonies and entertainments of a military character or when conducting services for the troops under military authority

4 Field service for the purposes of this Instruction must have been rendered within the period 4th August 1914 to the 31st July 1920

5 The Chaplains not belonging to the Indian Ecclesiastical Establishment to whom this Instruction refers are those who were entertained on the terms as laid down in Army Regulations India Volume I which ordinarily regulate the appointment of Roman Catholic and Wesleyan Chaplains

6 Chaplains affected by this Instruction who desire to avail themselves of its provisions should submit their claims through the usual departmental channels to the Secretary to the Government of India Army Department with detailed particulars of their field service. The particulars should include information as to the expeditionary forces with which the applicant served the dates of commencement and termination of service and the highest rank actually held and the period for which it was held and should be supported by copies of or references to appointment and posting orders

APPENDIX "A" to ARMY INSTRUCTION (INDIA)
No 1006 of 1922

Army Department letter No. 24603-2 (Q.M G.-5), dated the 25th May 1916.

I am directed to say that the Government of India have had under consideration the marginally noted orders with special reference to the manner in which they affect the superior Indian personnel of the Supply and Transport Corps

Standing Orders, Supply and Transport Corps paragraph 33
Civil Service Regulations, Articles 427 and 447

2 It has been represented that paragraph 33 of the Standing Orders of the Supply and Transport Corps bears hardly upon the more senior of the superior Indian personnel serving in the Supply and Transport Corps inasmuch as a man may, through no fault of his own, and largely by reason of the nature of his occupation, become constantly, or permanently, unfit for field service. It has also been pointed out that the compulsory retirement of such a man while he is capable of useful work in cantonments is opposed to the principle which is insisted upon in Civil Service Regulations, Article 427.

3 After giving the matter careful consideration the Government of India have decided that some modification of the orders in paragraph 33 of the Standing Orders of the Supply and Transport Corps is desirable, but that such modification can only be allowed to an extent which will not prejudice the efficiency of the Supply and Transport Corps for war. It must be recognised in this connection that constant liability for duty in the field is a necessary and unalterable condition of the service of superior Indian personnel employed in a military establishment such as the Supply and Transport Corps.

4 I am accordingly to say that although all superior Indian personnel employed in the Supply and Transport Corps must remain liable to service in the field throughout their service in government employ, yet the penalty of supersession, or of loss of appointment, in the event of repeated or continuous physical unfitness (which paragraph 33 of the Standing Orders of the Supply and Transport Corps prescribes) need not be enforced in cases in which the individual concerned has more than 20 years' service.

5 No exception to the existing rule can, however, be allowed in the case of any man who has less than 20 years service. In such cases it must be held that a medical certificate of partial incapacity, under the second clause of Article 447 of the Civil Service Regulations, is equivalent to a certificate of total incapacity. No man of the superior Indian personnel, unless he has more than 20 years' service, should be retained in government service if he is unable to discharge his duties in the field.

6 I am to add that men, whether with more or less than 20 years' service who are, in the opinion of a medical board, guilty of malingering in order to avoid field service, should be dismissed from government service. A man may only be invalided from the service and permitted to enjoy the pension which he may have earned, if his incapacity is genuine, and not self created or deliberately aggravated.

7 These orders are to be brought to the notice of medical boards assembled for the purpose of determining the physical fitness for further service of superior Indian personnel of the Supply and Transport Corps, and I am to request that paragraph 33 of the Standing Orders of the Supply and Transport Corps may be reconstructed as in the annexure to this letter.

STANDING ORDERS, SUPPLY AND TRANSPORT CORPS

Paragraph 33—No clerk, agent or hospital storekeeper shall be eligible for further promotion, officiating or permanent who has on two occasions, with an interval between them of not less than three months, been found unfit for field service. Any individual who has been found repeatedly unfit for field service shall be brought before a medical board with a view to his being invalided out of the service. No man should be retained in any grade who has been repeatedly found or is permanently, physically unfit for field service. A certificate of partial incapacity, as provided for in the second clause of Article 447 of the Civil Service Regulations, must, having in view the field service liabilities of clerks, agents and hospital storekeepers, be regarded as equivalent to a certificate of total incapacity and the man should be invalided from the service.

Paragraph 33 (A)—The orders in paragraph 33 do not apply to clerks, agents or hospital storekeepers who have more than 20 years' continuous and pensionable service under Government. In their case unfitness for field

service, temporary or permanent, does not constitute a bar to further promotion, provided that they are certified by a medical board to be fit for duty in cantonments. Clerks, agents and hospital storekeepers of over 20 years service will, however, still be liable for field service, and the man who is physically fit for duty in the field will ordinarily have a stronger claim to promotion than his immediate senior who is only fit for duty in cantonments.

Paragraph 33 (B) — Any clerk, agent or hospital storekeeper whatever his service (whether under 20 years or not) who is in the opinion of a medical board, guilty of malingering in order to avoid field service, or of aggravating his disease with the same object, shall be dismissed from the service. Such a man should not be invalided from the service or permitted to enjoy the pension which he may have earned.

APPENDIX "B" to ARMY INSTRUCTION (INDIA)
No 1006 of 1922

Quartermaster General's letter No. 24603-3 (Q. M. G.-5),
dated the 1st June 1916.

I am directed to forward for your information copies of Army Department letter No 24603 2 (Q. M. G. 5), dated 25th May 1916, and to request that those orders and the contents of this letter may be communicated to all clerks, agents, storekeepers and hospital storekeepers, of the Supply and Transport Corps serving under your orders

2 All the civilian establishments above noted, in the Supply and Transport Corps, should, in future, be medically examined at intervals of three months during the present war. In the case of those found unfit more than three months ago a further medical examination should take place at once

3 Each instance of recorded unfitness for field service, whether this has occurred during the present war or on any previous occasion on which a man was ordered on field service and was found unfit to go, should be taken into account for the purpose of giving effect, as indicated below, to the orders of the Government of India

4 The rules are to be interpreted in the following manner —

- (a) Instances of unfitness involving the penalties in question must be instances in which a man has been required or warned for field service and has failed to go. A medical examination while war is in progress with a view to determining physical fitness for active service must be held to imply that the man examined is required for active service
- (b) Instances of unfitness in peace at the annual medical examination do not involve a penalty or constitute an instance of unfitness for the purpose of these rules
- (c) Two instances of unfitness, as defined at (a), render a man who has not more than 20 years' service, permanently ineligible for further promotion

- (d) Three instances constitute repeated unfitness requiring a man of not more than 20 years service to be invalided from the service
- (e) There shall be an interval between each instance of not less than three months
- (f) Permanent unfitness whenever discovered whether a man has or has not failed to go on field service when ordered incapacitates a man for further retention in the service
- (g) Temporary non pensionable service cannot be included in the 20 years service which entitles a man to the concessions described in paragraph 33 (A)
- (h) It must be understood that a man of over 20 years service who has been more than once found unfit for field service [*vide* (a) (c) and (d) above] or who is permanently unfit for field service is liable to supersession by his juniors who are fit for field service. Each case will however be judged on its merits and physical fitness will not necessarily establish a claim to promotion by a junior in supersession of his senior
- (i) The case of a man whose unfitness for field service is the result of illness contracted on field service will be specially considered. In such cases it will be for responsible medical opinion (if necessary a medical board) to determine the degree of connection between the illness and its alleged cause
- (j) In applying these rules no medical certificate which is not signed by the staff surgeon or other gazetted medical officer can be accepted. The term 'medical board' implies a board consisting of gazetted medical officers

2 Officers and nurses whose disabilities have not been directly contracted in and by military service but have only been aggravated by such service will cease from the same date to be eligible for such sanatorium grants

3 Army Council Instruction 339 of 1919 is hereby cancelled

Extract paragraph 1 of Military despatch from the Right Hon'ble the Secretary of State for India, No 56 (Military), dated the 21st September 1922

I have applied the provisions of Army Council Instruction No 15 of 1922 to Indian service officers and nurses

Your Excellency's Government will observe from that Instruction that from the 1st January 1922 the maximum grant from public funds towards the cost of sanatorium treatment of officers and nurses on full or half pay who are suffering from tuberculosis and whose disabilities have been contracted in and by military service has been raised to £8 8s a week and that officers and nurses whose disabilities have not been directly contracted in and by military service but have only been aggravated by such service ceased to be eligible for sanatorium grants from that date

In this connection I forward ^a copy of correspondence with the Countess of Dudley Auxiliary Hospitals for Society 19 Berkeley that that Society any applications of the Indian service whose cases come in the category referred to in the latter portion of the preceding paragraph

The cost of treatment of demobilized officers suffering from tuberculosis in service in the late war will continue to be dealt with under the Ministry of Pensions Regulations.

Letter No M-72, dated 22nd February 1922, from the Under Secretary of State for India, Military Department, India Office, London, S W 1, to the Countess of Dudley, Auxiliary Hospitals for Officers Committee, British Red Cross Society, 19 Berkeley Street, W 1.

In reply to your letter of 18th August regarding sanatorium grant for tuberculous officers I am directed to state that information has been received from the War Office that the sanatorium grant for military officers and nurses whose disabilities are caused in and by military service will be raised to 8 guineas a week, with effect from the 1st January 1922, and that with effect from the same date officers whose disability is only aggravated by such service shall cease to be eligible for sanatorium grant.

The Secretary of State for India in Council has decided to apply the same principles to officers and nurses of the Indian service with effect from the same date. It is understood from the War Office that they have expressed the hope that the British Red Cross Society will be able to help any necessitous cases of officers suffering from tuberculosis, whose disability is only aggravated by military service. If such help is contemplated Mr Secretary Montagu hopes that similar treatment may be accorded to Indian Army officers and nurses.

Retired and demobilized officers if suffering from disabilities due to the War, will continue to be treated under Ministry of Pensions Regulations.

Letter dated 17th March 1922, from the Countess of Dudley, Auxiliary Hospitals for Officers Committee, British Red Cross Society, 19, Berkeley Street, W. 1, to the Under Secretary of State for India, Military Department, India Office, London, S W. 1.

In reply to your letter of February 22nd (M 72 1922) regarding sanatorium grant for tuberculous officers, I note that the Secretary of State for India in Council has decided to raise the sanatorium grant to 8 guineas per

in the case of officers and nurses of the Indian service whose disabilities are caused in and by military service, with effect from the 1st January 1922, and that with effect from the same date officers and nurses whose disability is only aggravated by such service shall cease to be eligible for sanatorium grant

Any application for help from officers suffering from tuberculosis which is only aggravated by military service will be sympathetically considered by my Committee which is composed of two members of the Red Cross, a representative of the Officers' Association and a representative of the Ministry of Pensions

1922.

Owing to the shortage of officers in the Signal Service and the delay in providing suitable courses for carrying out the technical training of officers attached on probation, it has been decided, *as a temporary measure*, in supersession of the orders contained in Army Instruction (India) No 286 of 1921, that an officer may on the recommendation of the Officer Commanding the Signal Unit concerned, draw signalling allowance after three months' attachment to a signal unit.

2 This decision, which is subject to the condition that the number of officers drawing signalling allowance does not exceed the authorised establishment of the Indian Signal Service, will have effect from the 17th September 1921, and will remain in force until the 31st March 1925, when it will be reconsidered.
